Teachers Guide To Discovering The Forest:

Teacher's Guide to Discovering the Forest Red Dot Publications, 2023-12-04 Remember what it was like playing outside as a child Maybe you were a tree climber a ball player a forest explorer or a playground queen or king Or did you prefer to find your special place and just sit quietly until your family called you in However you spent your days outside you almost certainly enjoyed more unstructured outdoor time than your current students do Today's children have full agendas Between school scheduled activities television computers and cell phones they have little free time It's no wonder that children are losing touch with natural spaces like our forests and yet time spent in natural spaces has been proven to help children and adults succeed It reduces stress and improves both concentration and productivity As such helping children find their forest their place in nature imprinted in their hearts no matter where they are offers benefits that cannot be underestimated Public forests are ours to use and enjoy The Forest Service manages 193 million acres of public land owned by all of us and there are millions more when you include local and state natural spaces in this tally Research has shown that outdoor experience with a mentor is a strong predictor of how environmentally aware and involved a child will become as an adult Finding My Forest provides the tools you need to integrate the wonder of our forests right into your curriculum If a child is to keep alive his inborn sense of wonder he needs the companionship of at least one adult who can share it rediscovering with him the joy excitement and mystery of the world we live in Rachel Carson Author Silent Spring Please participate in the movement to engage our nation's students in forests and natural spaces Help create the next generation of environmental stewards so that current and future generations can benefit from a lifetime connection to nature

DISCOVERING FORESTS Food and Agriculture Organization of the United Nations, 2018-04-19 This teacher's guide aims to introduce students aged 10-13 to forests their current state and multiple values while allowing teachers to meet curricular objectives The teaching modules focus on defining forests investigating their role in the water cycle exploring some of their products and introducing students to sustainable forest management The teaching draws inspiration from internationally recognized pedagogical approaches such as the inquiry method Most of the learning takes place by doing in classrooms or under the trees rather than being paper based although reading and writing exercises are also included The teacher's guide is complemented by a separate learning guide for school students The State of the World publications cover important global themes that are core to FAO's mission eradicating hunger food insecurity and malnutrition eliminating poverty and driving forward economic and social progress for all and ensuring sustainable natural resources management

Exploring meteorite mysteries a teacher's guide with activities for earth and space sciences. , [Guidance on developing forest education programmes for primary schools](#) Food and Agriculture Organization of the United Nations, 2023-10-31 Forest education builds the knowledge skills and shared values that underpin sustainable forestry and its contributions to sustainable development goals such as those set out in the 2030 Agenda for Sustainable Development In recent years however international forums have expressed

concern that in most countries forest related education is insufficient and outdated The net result is a lack of awareness and understanding among people of all ages of the importance of forests Equipping children with knowledge about the vital functions of forests is essential for conserving natural resources for future generations By nurturing awareness and a sustainability attitude in today s children we pave the way for responsible environmental stewardship among the adults of tomorrow This begins with reinforcing environmental education programmes that ignite curiosity about the natural world ultimately nurturing ecologically literate citizens capable of ensuring the sustainable management of our environment including forests Inspiring children from an early age builds an appreciation of forests and encourages them to explore careers that benefit society and the environment This publication caters to nations and jurisdictions interested in expanding forest education among primary school aged children Drawing from lessons learned by implementing project GCP INT 349 GER it offers guidance for decision makers educational authorities and institutions seeking to introduce forest education into their curricula existing school programmes and informal education settings
