TAKMAKOV,2020-03-14 Alexander Takmakov 100 arguments for success FOOTBALL MATRIX THE TIME HAS COME START
A NEW FOOTBALL AGE HAS YOUR PLAY TACTICS BECOME OUT OF DATE HAVE YOU EVER THOUGHT OF IT IT S HIGH
TIME TO CHANGE IT new tactical models how to dummy up the opponent team fakes Price 3 00 MATRIX FORMS
FOOTBALL Football is rather an old game with its rules and laws As many other games it has its ways and tendencies of
development But occasionally there appear new ideas which brake down stereotypes and form new mentality and new
principles of brushing the game These new principles are geometrical approach mathematical and analytical analysis
multiple repetition of actions Football of a new age won t be just running about the field It will be a well planed graphically
and mathematically organized system with its own rules and laws New tactical models and geometrical play formations such
as 1 4 2 4 1 4 3 3 1 3 6 1 1 3 5 2 introduced in the middle of the 20th century has changed football the structure of the game
and manner of football players interaction on the pitch Due to these innovations the tactics of many teams has changed
greatly the game itself has become more spectacular admiring millions of football fans This process of developing will never
stop The changes will touch both technical and tactical aspects of the game the flying path of the ball the players agility the
manner of dribbling and passing the ball individual and group tactics game rhythms and so on Coaches and football club
managers are interested in results shown on score boards but the thing which is of much greater importance is the efficiency
of team tactics and individual skills So the question is how to make the team tactics more effective and the game more
spectacular The answer is to use new training programs to create new formations to use more tricks fooling the opponent to
make movements more intelligent passes faster and more precise Having applied all these innovations to the game we will
get a completely different play strategy consisting of new tactical models demanding players highly skillful in jockeying
tackling and assisting and having advanced mental and physical abilities All tactical models must be thoroughly timed and
worked out in advance So graphically it will look like a complex geometrical scheme with mathematical calculations Future
football will be a football of matrix forms MATRIX means a system regulating and regenerating by itself consisting of
specially organized data and parameters Besides matrix is the basis of our three dimensional world which can be applied to
any sphere of our life and football is not an exception because it unites millions of people all over the word Matrix is a
structure projecting our physical world and our existence It s a man or team developing program But there must be
somebody who will be in charge of it who will be able to manage and develop it This person must feel and understand all
inner processes which rule the game now and all tendencies of future tactics developing including players technical skills and
mental abilities Changes in football are inevitable The only thing we should do is realize the importance of changes in
formations and interactions between players on the pitch Formations in football are a method of positioning players on the
pitch to allow a team to play according to their pre set tactics Different formations can be used depending on whether a team

wishes to play more attacking or defensive football Formations can be altered during a game but this requires adaptation by the players to fit in to the new system Formations count the number of players in each area beginning with the defensive line not including the goalkeeper It is by convention counted when the team is defending and being properly organized The most common formations are variations of 4 4 2 4 3 3 3 2 3 2 5 3 2 and 4 5 1 2 straight passing running dribbling curve passing small goal team players goalkeeper of the team players of the opponent team standard free zones non standard free zones zones of additional assistance in defence

EXERCISES 1 Passing the ball towards the partner moving circle wise **Commentary** The player passes the ball to the partner moving circle wise The partner may run clockwise and anticlockwise This is a complex coordinating exercise because it requires complex skills while running circle wise the player must play a good return pass hitting the ball on the volley The type of the pass is varied instep shot toe kick with the left outer instep with the right outer instep with the left outside of the foot with the right outside of the foot with the left inner instep with the right inner instep The main task of the players to play well placed passes The main difficulty of the exercise is that the distance between the partners changes as one of them is constantly moving Serving passes the players must calculate the flying path of the ball and the shot power according to the distance between them

2 Shots on small goals **Commentary** This exercise helps to train home shots and agility Players occupy the positions shown in the scheme and play shots on small goals The number of the balls is the same as the number of the shots player A four balls player four balls player three balls The players shot balls simultaneously The distance between the players and the small goals can be changed Mind that the shot power depends on the distance The main task of the players As the goals are set in different places they must coordinate the flying path of the ball and the shot power to make their shots well placed The players may also practice different shot types instep shot toe kick with the left outer instep with the right outer instep with the left outside of the foot with the right outside of the foot with the left inner instep with the right inner instep

Brown,2020-06-04 This book examines the youth sport parent experience through the lens of social capital a cornerstone social science concept of the past 30 years Social capital reflects the value of one's social networks and the actual and potential benefits and costs of relationships Bringing together a team of kids for a season also brings together their families who all must negotiate this new social world Within this world relationships are bound to form and these are the foundation upon which this project rests Youth sport scholars have traditionally been interested in questions such as how many kids play sports what sports they play how and why do they start playing and stop playing and the costs and benefit of participation However aside from sensational examples of youth sport parents behaving badly scholars know far less about the parental experience This time is meaningful for parents because parents often spend as much or even more time at the fields than their children It is thus worth examining what they might get out of this investment Utilizing two years of fieldwork and over 30 interviews with parents and board members of a youth baseball league in the southwestern United States this book provides an inside look at the beneficial relationships that can be found in the bleachers of a kids baseball game as well as the unseen high stakes games waged in the boardroom where relationships can carry heavy costs as well This book was originally published as a special issue of Sport in Society *Miracle at Monty Middle School* Mary A. Monroe,2005-12-28 Marvin begins his first day of eighth grade feeling like a loser fat and depressed After all he wasn't the smartest kid there ever was and even his school Monty Middle tried to hide him with 11 other nobodies in Room 122 in the back of the school in

a special Drop Out Prevention D O P class But then miracles begin to happen the day Mr Martin a charismatic African American writer turned teacher walks into his class He s a teacher like no other who helps Marvin along with pals Markus Quinesha Roberto Luis Danielle and others from the culturally diverse class believe in themselves and together they create miracles Do you believe in miracles You will after reading Miracle at Monty Middle School Perfect for middle and high school classrooms My students and I really enjoyed Miracle at Monty Middle School It is an inspiring book taking a bunch of kids who think they are nobodies and turning them into kids who believed in themselves Sheila Berry Middle School Language Arts Teacher West Palm Beach Florida This is what we live and relate to every day Mon through Fri The book takes you through the reality of being a middle school teacher Unless you ve been there you wouldn t really know what goes on behind closed doors It s a great book I think students would enjoy reading this book instead of the textbooks we have now Anna Sterling Middle School Language Arts Teacher West Palm Beach Florida Book available in Spanish **Nurturing**
