[Rocket Science for Traders](#) John F. Ehlers, 2001-07-30 Predict the future more accurately in today s difficult trading times The Holy Grail of trading is knowing what the markets will do next Technical analysis is the art of predicting the market based on tested systems Some systems work well when markets are trending and some work well when they are cycling going neither up nor down but sideways In Trading with Signal Analysis noted technical analyst John Ehlers applies his engineering

expertise to develop techniques that predict the future more accurately in these times that are otherwise so difficult to trade. Since cycles and trends exist in every time horizon, these methods are useful even in the strongest bull or bear market. John F. Ehlers, Goleta, CA, speaks internationally on the subject of cycles in the market and has expanded the scope of his contributions to technical analysis through the application of scientific digital signal processing techniques. **The New Fibonacci Trader** Robert Fischer, Jens Fischer, 2001-10-26. CD-ROM contains WINPHI software. **Getting Started in Trading** Sunny J. Harris, 2001-08-02. Written specifically for the novice. **Getting Started in Trading** explains the basics of trading in any time frame. While most beginner books answer such technical questions as "What is a put" and "What is a call," this book describes both the what of trading and the how: how do I place a trade, how do I select a broker, and what do I tell them when I open my account. It provides detailed information on selecting computer software packages and data sources.
