Cohn, Steven T. Brower, 2012 A guide to when to and what to rather than how to this book provides evidence based surgical reviews to provide credible answers to age old surgical management questions The management issues presented are oriented toward interventions and use evidence based techniques to assess the safety and efficacy of new treatments and rehabilitative or preventative interventions Each chapter

is organized around the key questions essential to delineating the current status of evidence related to the subject reviewed. Publications from the past decade are cited that provide Level I and II evidence using the Oxford scale. Throughout Elective General Surgery, careful assessment of the validity of intervention studies and the strength of the evidence that they provide underlies the choices of cited publications. The information presented in this volume guides the scientific surgeon in providing state of the art care and in optimizing the use of medical resources without losing sight of the need to address the unique needs of individual patients.

Conditionals Stefan Kaufmann, David E. Over, Ghanshyam Sharma, 2023-04-29. This edited book examines conditionals from a number of interdisciplinary perspectives drawing on research from fields as diverse as linguistics, psychology, philosophy, and logic. Across 13 chapters, the authors not only investigate and examine various commonly held perceptions about conditionals but they also challenge many of the assumptions underpinning current conditionals scholarship, setting an agenda for future research. Based in part on the papers presented at a unique international summer school, *Conditionals in Paris*, this volume represents the cutting edge in the study of conditionals and it will be of interest to scholars in fields including linguistics and psychology, semiotics, philosophy, and logic, and artificial intelligence.
