### Guardians of the Brazilian Amazon

Rainforest: Environmental Organizations and Development Luiz C. Barbosa,2015-05-08 The Amazon region is the focus of intense conflict between conservationists concerned with deforestation and advocates of agro industrial development This book focuses on the contributions of environmental organizations to the preservation of Brazilian Amazonia It reveals how environmental organizations such as Greenpeace Friends of the Earth WWF and others have fought fiercely to stop deforestation in the region It documents how the history of frontier expansion and environmental struggle in the region is

linked to Brazil's position in an evolving capitalist world economy. It is shown how Brazil's effort to become a developed country has led successive Brazilian governments to devise development projects for Amazonia. The author analyses how globalization has led to the expansion of international commodity chains in the region particularly for mineral ores, soybeans and beef. He shows how environmental organizations have politicized these commodity chains as weapons of conservation through boycotting certain products while other pro-development groups within Brazil claim that such organizations threaten Brazil's sovereignty over its own resources.

**Religion, Disability, and Sustainable Development in Africa** Chioma Ohajunwa, Kudakwashe 'AK' Dube, Ezra Chitando, 2025-02-14 This book investigates the interplay between disability and religion in Africa and what this means in the context of the Sustainable Development Goals. The importance of meeting the needs of people with disabilities is highlighted specifically in several Sustainable Development Goals as well as being emphasised as a cross-cutting issue across all the goals. Over 1 billion people are estimated to be living with disabilities and 80% of this population live in the Global South, many within Africa. This book argues that within this context, religion must be considered as people with disabilities often turn to religion for solace in confronting the daily struggles and pains that they face. Drawing on multiple disciplinary lenses, this book reflects on how traditional indigenous Abrahamic and other African minority religions and philosophies interact with disability and how this relates to the Sustainable Development Goals. The book demonstrates how religions in Africa conceptualise, imagine or re-imagine disability in the context of key themes such as gender, ecological justice, health, poverty, education, employment, entrepreneurship and migration. Overall, the book invites researchers from across the social sciences to consider how African religious, theological and philosophical ideas can help towards the inclusion of people with disabilities in the 2030 development agenda in Africa.
