Research Universities in Africa Nico Cloete,Ian Bunting,2018-11-09 From the early 2000s a new discourse emerged in Africa and the international donor community that higher education was important for development in Africa Within this zeitgeist of converging interests a range of agencies agreed that a different collaborative approach to linking higher education to development was necessary This led to the establishment of the Higher Education Research and Advocacy

Network in Africa Herana to concentrate on research and advocacy about the possible role and contribution of universities to development in Africa This book is the final publication to emerge from the Herana project The project has also published more than 100 articles chapters reports manuals and datasets and many presentations have been delivered to share insights gained from the work done by Herana Given its prolific dissemination it seems reasonable to ask whether this fourth and final publication will offer the reader anything new This book is certainly different from previous publications in several respects First it is the only book to include an analysis of eight African universities based on the full 15 years of empirical data collected by the project Second previous books and reports were published mid project This book has benefited from an extended gestation period allowing the authors and contributors to reflect on the project without the distractions associated with managing and participating in a large scale project For the first time some of those who have been involved in Herana since its inception have had the opportunity to at least make an attempt to see part of the wood for the trees Different does not necessarily mean new An emphasis on the newness of the data and perspectives presented in this book is important because it shows that it is more than a historical record of a donor funded project Rather each chapter in this book brings to a lesser or greater extent something new to our understanding of universities research and development in Africa

Contesting Hydropower in the Brazilian Amazon Ed Atkins, 2020-11-15 In *Contesting Hydropower in the Brazilian Amazon* Ed Atkins focuses on how local national and international civil society groups have resisted the Belo Monte and S o Luiz do Tapaj s hydroelectric projects in Brazil In doing so Atkins explores how contemporary opposition to hydropower projects demonstrate a form of contested sustainability that highlights the need for sustainable energy transitions to take more into account than merely greenhouse gas emissions The assertion that society must look to successfully transition away from fossil fuels and towards sustainable energy sources often appears assured in contemporary environmental governance However what is less certain is who decides which forms of energy are deemed sustainable *Contesting Hydropower in the Brazilian Amazon* explores one process in which the sustainability of a green energy source is contested It focuses on how civil society actors have both challenged and reconfigured dominant pro dam assertions that present the hydropower schemes studied as renewable energy projects that contribute to sustainable development agendas The volume also examines in detail how anti dam actors act to render visible the political interests behind a project whilst at the same time linking the resistance movement to wider questions of contemporary environmental politics This interdisciplinary work will be of great interest to students and scholars of sustainable development sustainable energy transitions environmental justice environmental governance and development studies

Performed Culture in Chinese Language Education Guangyan

Chen,2020-06-22 Performed Culture in Chinese Language Education A Culture Based Approach for U S Collegiate Contexts elaborates on a cultural awareness oriented cultural performance based and cross cultural communication focused foreign language pedagogical paradigm Performed Culture Approach in the context of U S collegiate Chinese language education Guangyan Chen draws on the data collected through questionnaires comparisons between this pedagogy and mainstream pedagogical frameworks and analyses of curricular development lesson plans and classroom discourses Chen promotes the performed culture approach by delineating the theoretical framework of this pedagogy reporting studies that empirically support cultural primacy in Chinese language education and illustrating this pedagogy through analyses of a curricular structure a lesson plan and classroom discourses Chen shows how this pedagogy addresses the gaps between the social need for global citizens and the insufficient integration of culture into foreign language education The performed culture approach also addresses the overall drop in U S collegiate foreign language enrollment as this pedagogy connects foreign language programs to university missions and social needs

Departments of Labor, Health and Human Services, Education, and Related Agencies Appropriations for 2018 United States. Congress. House. Committee on Appropriations. Subcommittee on the Departments of Labor, Health and Human Services, Education, and Related Agencies,2017

Global Impact of Unconventional Energy Resources Manochehr Dorraj,Ken Morgan,2018-11-26 The chapters in this volume represent the latest thinking on the development and exploration of unconventional energy resources in the U S Canada Australia Europe Russia Asia Pacific Middle East Latin America and Africa and shed light on its potential and future prospects in these respective regions The diversity of thinking about the shale revolution is also evident in our case studies Throughout many countries in Europe for example there is a strong preference for investment in renewable sources of energy over the fossil fuels In addition to environmental concerns the falling price of renewables have also made them more attractive financially Consequently global investment in renewables is outpacing that of fossil fuel two to one Watching this trend in 2017 the Chinese government has pledged to invest 360 billion on renewable energy This would make China the largest investor in development of renewables in the world Other obstacles to development of shale oil and gas in other parts of the world include lack of adequate shale resources Africa the abundance of conventional energy resources Middle East and North Africa high cost of production Russia China Japan and political opposition to hydraulic fracturing France and Poland Despite these sentiments the economic imperatives providing employment also play a significant role in determining the future prospects for unconventional energy resources globally

Constructions in Spanish Inga Hennecke,Evelyn

Wiesinger,2023-07-15 Constructions in Spanish is the first book length English language volume in the field of usage based and Cognitive Construction Grammar dedicated exclusively to Spanish The contributions investigate a wide range of constructions from both a synchronic and a diachronic perspective cutting across morphology syntax semantics and pragmatics The constructionist perspective is also linked to comparative and typological research to language learning and teaching and to multi modal discourse analysis The volume aims both at increasing the visibility of constructionist approaches to Spanish and at offering data and analyses of Spanish for scholars working on constructional analyses of other languages The volume thus addresses both scholars in Spanish and Romance linguistics as it builds connections between more traditional approaches and constructionist approaches and construction grammarians generally especially scholars interested in comparative work **Creating a Culturally Inclusive Campus** Barbara J.
