Teacher Observation Guide Dra:

The Literacy Coach's Companion, PreK-3 Maryann Mraz, Robert Algozzine, Brian Kissel, 2009 Literacy coaches have become an increasingly important part of school literacy teams. As a result, there is a greater need for understanding the issues related to this growing position. This book addresses those issues and highlights the expanding role of literacy coaches in early and elementary literacy programs. Chapters feature user-friendly guidelines and evidence-based strategies for sustained professional development protocols for classroom observations and teacher conferences and vignettes offering solutions to common coaching challenges. Coaches will discover how to define an effective proactive role in promoting literacy initiatives, strengthen content knowledge and coaching skills to support teachers' efforts and students' literacy development, collaborate with teachers and school leaders to establish productive learning communities, and communicate their changing roles to administrators. Becoming a Literacy Leader Jennifer Allen, 2023-10-10 In this second edition of *Becoming a Literacy Leader: Supporting Learning and Change*, author Jennifer Allen reflects on her work as a literacy specialist and how the role has evolved in the decade since she wrote the first edition. Her experiences can apply to all school leaders, including principals, coaches, teachers, support staff, and office administrators. Allen focuses on three ideas to describe her work: Layered Leadership, the multitude of supports in place for teachers to encourage learning and change within schools; Shared experiences that develop community and develop common understanding of practices, curriculum, and assessment; Importance of moving in the same direction in that literacy coaches and leaders stay interconnected and aligned to the goals of the school. Allen knows the challenges of teachers' faces and advocates literacy coaches implement these layers of support within a school, including in-class support, curriculum support, and assessment study group facilitation and the cultivation of teacher leadership. In *Becoming a Literacy Leader*, she provides an explicit framework for implementing these layers of coaching and explains how administrators can use the literacy leader position to build and sustain change within their schools. This book will be the road map for how literacy leaders and coaches approach their work with purpose and intention. Online videos that accompany the book bring the text alive by showing readers what coaching looks and sounds like.

A Sense of Belonging Jennifer Allen, 2023-10-10 Too often, new teachers enter the profession excited to make a difference in the lives of children, only to find themselves disillusioned and overwhelmed with the expectations of the classroom. In *A Sense of Belonging*, Jennifer Allen shares her stories and journey in creating an infrastructure of support for new teachers within her school district. *A Sense of Belonging* provides research-based practical ideas on how to support new teachers while honoring the innovation, idealism, and optimistic enthusiasm that they bring to the classroom. From supporting new teachers early in the year with administering and analyzing literacy assessments through using student work to guide instruction to offering ongoing help with curriculum planning, Jennifer shares strategies on fostering relationships with new teachers starting before school even begins, creating learning environments for new

teachers to be reflective practitioners coaching new teachers in their classrooms and providing opportunities for them to observe their peers in action supporting new teachers beyond their first year through gradual release of support over their first several years in the classroom and facilitating professional development opportunities where new and veteran teachers learn alongside one another Jennifer believes and her book demonstrates that when schools embrace encourage and celebrate the work of new teachers they establish a supportive environment that fosters excellence and improves retention

teacher education programmers in universities with an overall aim of highlighting how we might support preservice teachers involvement in learning that is challenging and inservice teachers engagement in professional experiences that promote changes in teaching practice We argue that teachers need to be encouraged to question their beliefs and develop increasingly sophisticated beliefs about their knowledge and their students knowledge that facilitate learning and intellectual growth
