Occidentalism Xiaomei Chen,1995-09-07 Xiaomei Chen offers an insightful account of the unremittingly favorable depiction of Western culture and its negative characterization of Chinese culture in post Mao China from 1978 1988 Chen examines the cultural and political interrelations between the East and West from a vantage point more complex than that accommodated by most current theories of Western

imperialism and colonialism Going beyond Edward Said's construction in *Orientalism* of cross cultural appropriations as a defining facet of Western imperialism Chen argues that the appropriation of Western discourse what she calls Occidentalism can have a politically and ideologically liberating effect on contemporary non Western culture Using China as a focus of her analysis Chen examines a variety of cultural media from Shakesperian drama to Western modernist poetry to contemporary Chinese television She thus places sinology in the general context of Western theoretical discourses such as Eurocentrism postcolonialism nationalism modernism feminism and literary hermeneutics showing that it has a vital role to play in the study of Orient and Occident and their now unavoidable symbiotic relationship Occidentalism presents a new model of comparative literary and cultural studies that reenvisions cross cultural appropriation

Planar War WANG JINKANG and others, How will future wars be fought in what spaces and which countries will have the capability to engage in such wars These are the questions that people are most curious about and explore the most The First and Second World Wars are distant from us but will a Third World War really happen There are reports suggesting that Hawking predicted the timing of the Third World War roughly around 2035 Will Hawking's prediction of the Third World War come true Science fiction writers have always had many imaginative ideas about future wars What kind of sparks can be generated from the collision of

science fiction and military concepts Two Dimensional Warfare collects science fiction stories that imagine future wars aiming to provide a feast of future war fantasies for military enthusiasts and sci fi fans Two dimensional beings invade the three dimensional Earth and humans are surprisingly not their match In comparison to our world chemical bonds in the two dimensional universe are more unstable making the use of chemical energy more natural and convenient Under my observation the little beings created the first engine driven by chemical energy the Industrial Revolution had begun Later a powerful bomb was detonated under the feet of a beast that threatened their survival Subsequently I saw the appearance of transportation tools similar to cars on paper and soon two dimensional airships appeared Following that two dimensional transistors two dimensional programmable calculators and various two dimensional intelligent machines emerged Gradually I realized that my knowledge level could no longer keep up with their pace
