Commission of Inquiry (Public Service Structure and Remuneration Commission), D. N. Ndegwa, 1971 **Participatory Development in Kenya** Josephine Syokau Mwanzia, Robert Craig Strathdee, 2016-05-13 Participatory Development PDev has been embraced by Third World governments and international organizations such as the World Bank as a means to reduce poverty and empower disadvantaged communities. The emphasis on creating partnerships and using participatory and people-centred approaches has obvious political appeal yet there is evidence that in practice interventions designed to increase PDev and reduce poverty have yet to have the desired empowerment transformation and sustainability effect. Using an in-depth study of the Basic Education Improvement Project BEIP implemented by the Government of Kenya, the authors of this book critically assess the fit between policy practice and theory of PDev to shed light on theoretical debates that are on going in development.

Education, Equity and Transformation Crain Soudien, Peter Kallaway, 1999-12-31 The papers for this special issue were selected from a pool of nearly 700 presentations which were made at the 10th Congress of the World Council of Comparative Education Societies WCCES which was held in Cape Town, South Africa from 12 to 17 July 1998. The congress was hosted by the Southern African Comparative and History of Education Society SACHES and held on the campuses of the University of the Western Cape and the University of Cape Town. The papers were selected by the convenors of the conference's standing commissions which provided a significant focus for the conference proceedings. These commissions were on the following themes: Teachers and teacher education, Curriculum, Higher education, Lifelong learning, Language literacy and basic education, Gender and education, Policy, Theory and theory shifts, Basic education in Africa, Peace and Justice, Dependency, European Education Policy, Research in Africa, Culture, Indigenous Knowledge and Learning. The papers presented as the discussion below makes clear ranged widely in subject matter and theoretical perspective and addressed issues of concern both to individual countries and to regions of the world. While some of the papers use comparison as an approach, it remains a matter of concern that the comparative perspective is so little in evidence. It is hoped that the comparative research approach will be more in evidence in the future.
