disseminate their findings on establishing a teaching school based on Finnish insights in Johannesburg Chapter 3 highlights the challenges faced in open and distance learning teacher education contexts Several of the chapters disseminate research findings on alternative interventions to classic WIL namely where safe spaces or laboratories are created for student teachers to learn and grow professionally These could either be simulations such as software programmes and avatars in the intervention described in Chapter 2 student excursions as the findings in chapters 5 7 and 10 portray or alternative approaches to WIL e g Chapters 11 and 12 The book is devoted to scholarship in the field of pre service teacher education The target audience is scholars working in the fields of pre service teacher education work integrated learning and self directed learning The book makes a unique contribution in terms of firstly its extensive use of Cultural Historical Activity Theory as a research lens and secondly in drawing on various theoretical frameworks Both quantitative and qualitative research informed the findings of the book

Positive Educational Approaches to Teaching Effectiveness and Student Well-being Hans Henrik Knoop, Mirna Nel, Sufen Chen, Rebecca Shankland, Llewellyn Ellardus Van Zyl, Matthew Cole, 2022-11-08 *The human dilemma of displacement* Alfred R. Brunsdon, 2020-12-31 In this book social responsive theological research converges to provide practical theological and ecclesiological perspectives on the growing human dilemma of displacement The book presents the research of practical theologians a missiologist and a religious practitioner whose work pertains first and foremost to the South African context The different fields of expertise of the contributors within the broader field of practical theology worked towards a unique compilation of themes each relevant to the issue at stake The majority of chapters are theoretically orientated except where authors refer to empirical work conducted during previous research The main contribution of this collaborative work is to be sought in the practical theological and ecclesiological perspectives it provides It engages the critical questions of what kind of church we need and what kind of care we should provide in the face of the growing predicament of human displacement The theological and theoretical principles uncovered in the different chapters will be of use to theologians from all theological subdisciplines as well as to religious practitioners and leaders of faith communities that are challenged with the growing realities of strangers on their doorsteps and in their pews Biblical Theological Investigations into the Incomprehensibility of God Francois P. Viljoen, Albert J. Coetsee, 2025-10-14 Biblical Theological Investigations into the Incomprehensibility of God draws readers into the profound attribute of God's incomprehensibility as witnessed in the unfolding narrative of Scripture While systematic theology has long affirmed the incomprehensibility of God this volume breaks new ground by exploring this attribute through the lens of biblical theology tracing its expression in specific texts of the Old and New Testaments Originating from the 2024 EABS conference in Sofia the chapters in this volume represent research by scholars who examine how biblical texts portray God as both revealed and ultimately unfathomable by means of detailed exegetical studies *Handbook of Academic Integrity* Sarah Elaine Eaton, 2023-12-04 The book brings together diverse views from around the world and provides a comprehensive overview of academic integrity and how to create the ethical academy At the same time the Handbook does not shy away from some of the vigorous debates in the field such as the causes of academic integrity breaches There has been an explosion of interest in academic integrity in the last 20-30 years New technologies that have made it easier than ever for students to cut and paste coupled with global media scandals of high profile researchers behaving badly have resulted in the perception that plagiarism is on the rise This in combination with the massification and commercialisation of higher education has resulted in a burgeoning interest in the importance of academic integrity how to safeguard it and how to address breaches appropriately What may have seemed like a relatively easy topic to address students copying sources without attribution has in fact turned out to be a complex interdisciplinary field of research

requiring contributions from linguists psychologists social scientists anthropologists teaching and learning specialists mathematicians accountants medical doctors lawyers and philosophers to name just a few Because of this broad interest and input this handbook serves as the single authoritative reference work which brings together the vast growing interdisciplinary and at times contradictory body of literature For both established researchers practitioners and those new to the field this Handbook provides a one stop shop as well as a launching pad for new explorations and discussions

Higher Education in the Face of a Global Pandemic ,2022-02-28 The book reflects on the extent to which the coronavirus COVID 19 pandemic influenced the education system in Africa notably South Africa The advent of the pandemic has brought a new context to the challenges of access deepening the precarious position of African higher education systems The pandemic underscored that African higher education systems are fragile and not uniformly resilient The book discusses the challenges created or further entrenched by COVID 19 and how the typology of inequality across the differentiated institutions impacted the management of education delivery during COVID 19 Per se lessons learned were documented to inform decision making and practice while drawing conclusions for future usage Even though the shift to emergency remote teaching was not foreseen and thus not coordinated the authors argue that students learning styles perceptions of online learning and digital pedagogy should be considered in the post COVID 19 curricula development processes **Glimpses**

intersections between education identity formation and language in post apartheid South Africa with specific attention to higher education It does so against the backdrop of the core argument that the sector plays a critical role in shaping re producing and perpetuating sectoral class sub national and national identities which in turn in the peculiar South African setting are almost invariably analogous with the historical fault lines determined and dictated by language as a marker of ethnic and racial identity The chapters in the book grapple with the nuances related to these intersections in the understanding that higher education language policies overt and or covert largely structure institutional cultures or what has been described as curriculum in higher education institutions Together the chapters examine the roles played by higher education by language policies and by the intersections of these policies and ethnolinguistic identities in either constructing and perpetuating or deconstructing ethnolinguistic identities upon which the sector was founded The introductory chapter lays out the background to the entire book with an emphasis on the policy and practice perspectives on the intersections The middle chapters describe the so called White Universities Black Universities and Middle Man Minorities Universities The final chapter maps out future directions of the discourses on language and identity formation in South Africa s higher education

Scaffolding work-integrated learning excursions Adri Du Toit, Neal Petersen, Iman C. Chahine, 2025-02-28 In South Africa work integrated learning WIL excursions are crucial in preparing university students for the world of work As higher education institutions HEIs evolve to promote equity and inclusivity these excursions are continuously refined to enhance student learning outcomes This scholarly book explores how WIL excursions support self directed learning SDL and foster skills essential for the 21st century such as active learning intercultural sensitivity and epistemological access A key focus is on the 2023 WIL excursions at North West University NWU which align with South Africa s National Development Plan 2030 and the University Capacity Development Grant s UCDG goal of equipping graduates to address contemporary societal challenges The book examines first year excursions across three faculties Education Health Sciences and Law using both virtual and in person experiences to develop intercultural citizenship communication and a sense of belonging Through research based insights the chapters highlight how these excursions were designed and implemented to help students recognise personal biases deepen cultural awareness and take responsibility for their own learning Additionally the book underscores how students were encouraged to identify their learning needs and access resources that promote ongoing self directed growth By linking WIL to SDL the book provides novel perspectives on fostering inclusivity and preparing students for their academic journeys professional careers and contributions to a more socially just world *Life in Transit:*
