Widdowson, 2004-06-03 Providing an introduction this work contains sections on the British Empire **Hunger Mountain** David Hinton, 2012-11-13 Learning to see with the eyes of the ancient Chinese sages can change your view of the universe as David Hinton demonstrates He takes us on a series of walks up Hunger Mountain a wilderness area near his home in Vermont What he sees and describes about these outings is informed by the cosmos view he s imbibed from his many years of translating Chinese poetry a way of looking at nature and our place in it and a particular way of regarding the relationship between ourselves and the universe It s a view that informs all the great Chinese poetry and art It s found in Taoism and Chinese expressions of Buddhism but it predates them by millennia going back probably to the Paleolithic Age and it s found in the structures of the Chinese language itself and in the evolution of the system of writing Each chapter takes its name and theme from a character of the Chinese alphabet whose history and development Hinton examines They originate as primitive marks very literally expressing the simplest of ideas from which they grow and develop through time to express concepts of great subtlety The poets and artists understood this and kept their focus on the emptiness that gives birth to all things as they used language and images that sprang from that emptiness We learn about this as David walks up and around Hunger Mountain making observations about the landscape his place in it and the underlying geological reality telling stories of the great poets as he goes It s the profoundest kind of nature writing and it s an exceptionally accessible entr e to an ancient

Chinese view of the universe **LEXeter '83: proceedings** Reinhard R. K. Hartmann, Exeter > LEXeter, 2017-12-04 No detailed description available for LEXeter 83 proceedings How to Think Like Shakespeare Scott Newstok, 2021-08-31 This book offers a short spirited defense of rhetoric and the liberal arts as catalysts for precision invention and empathy in today's world. The author, a professor of Shakespeare studies at a liberal arts college and a parent of school age children, argues that high stakes testing and a culture of assessment have altered how and what students are taught as courses across the arts, humanities, and sciences increasingly are set aside to make room for joyless mechanical reading and math instruction. Students have been robbed of a complete education, their imaginations stunted by this myopic focus on bare literacy and numeracy. Education is about thinking, Newstok argues, rather than the mastery of a set of rigidly defined skills and the seemingly rigid pedagogy of the English Renaissance produced some of the most compelling and influential examples of liberated thinking. Each of the fourteen chapters explores an essential element of Shakespeare's world and work, aligns it with the ideas of other thinkers and writers in modern times, and suggests opportunities for further reading. Chapters on craft, technology, attention, freedom, and related topics combine past and present ideas about education to build a case for the value of the past, the pleasure of thinking, and the limitations of modern educational practices and prejudices. *Style, Wit and Word-Play* Tao Tao Liu, Chan Sin-wai, Laurence Wong, 2011-12-08 This collection of essays is dedicated to the memory of David Hawkes (1923-2009), who is remembered as a pre-eminent translator and interpreter of Chinese literature into English, his most famous work being the translation of the classic eighteenth century Chinese novel, the Hongloumeng or The Story of the Stone. The first part of the collection consists of studies on him and his works; the second part, on the art of translation into English from Chinese literature. All the essays are written by scholars in the field from Britain, America, Australia, and Hong Kong. **Garden of Eloquence / Shuoyuan** 言言 Liu Xiang, 2022-01-16 In 17 BCE, the Han dynasty archivist Liu Xiang presented to the throne a collection of some seven hundred items of varying length, mostly quasi-historical anecdotes and narratives that he deemed essential reading for wise leadership. Garden of Eloquence (Shuoyuan) divided into twenty books, grouped by theme, follows a tradition of narrative writing on historical and philosophical themes that began seven centuries earlier. Long popular in China as a source of allusions and quotations, it preserves late Western Han views concerning history, politics, and ethics. Many of its anecdotes are attributed to Confucius's speeches and teachings that do not appear in earlier texts, demonstrating that long after Confucius's death in 479 BCE, it was still possible for new historical narratives to be created. Garden of Eloquence is valuable as a repository of items that originally appeared in other early collections that are no longer extant, and it provides detail on topics as various as astronomy and astrology, yin-yang theory, and quasi-geographical and mystical categories. Eric Henry's unabridged translation, with facing Chinese text and extensive annotation, will make this important primary source available for the first time to the Anglophone world. *The Athenaeum*, 1904
