A Forgotten Landscape: How A Place Called Crockett's Corner Became The Maine Mall M.M. Drymon PhD, 2015-10-25

A place called Crockett's Corner began as a seventeenth century colonial settlement that grew into a stable and sustainable nineteenth century American agrarian landscape. During the twentieth century in a rapid but staged process the landscape was changed into an edge city. These changes were the direct result, especially after 1938, of prevailing public policies which acted to constrain some land uses while supporting others. Landscape change has had unintended consequences including local social network destruction, historic building demolition, and unmitigated air and non point source water pollution. Raising awareness of the deep history of this place may help empower advocates for historic preservation, open space, environmental protection, and more sustainable land use practices in the future.

A Mere Kentucky of a Place Keith Harper, 2023-09-29

As the story goes, an itinerant preacher once visited the Bluegrass region and proclaimed heaven to be a mere Kentucky of a place. The Commonwealth's first Baptists certainly thought so as they began settling the region a decade before statehood. By 1785 a group of pioneering preachers formed the Elkhorn Association, widely regarded as the oldest Baptist association west of the Alleghenies. Often portrayed in the historiography as the vanguard of a new frontier democracy, the Elkhorn Association on closer inspection reveals itself to be far more complex. In *A Mere Kentucky of a Place*, Keith Harper argues that the association's Baptist ministers were neither full fledged frontier egalitarians nor radical religionists but simply a people in transition. These ministers formed their identities in the crucible of the early national period, challenged by competing impulses including their religious convictions, Jeffersonian Republicanism, and a rigid honor code with mixed results. With a keen eye for human interest, Harper brings familiar historical figures such as John Gano and Elijah Craig to life as he analyzes leadership in the Elkhorn Association during the early republic. Mining the wealth of documents left by the association, Harper details the self-aware struggle of these leaders to achieve economic wealth, status, and full social and cultural acceptance, demonstrating that the Elkhorn Association holds a unique place in the story of Baptists in the New Eden of Kentucky. Ideal for course adoption in religious studies and students of Kentucky history, this readable work is sure to become a standard source on the history of religion on the Kentucky frontier.

A Place to Live and Work Harry C. Silcox, 1994

A rich history of the unique relationship between life and work in an American factory town from 1840 to 1984. *A Place to Live and Work* tells the remarkable story of Henry Disston's saw manufacturing company and the factory town he built. The book provides a rare view of the rise of one of America's largest and most powerful family owned businesses from its modest beginnings in 1840 to the 1940s when Disston products were known worldwide to the sale and demise of the company in the postwar years. Henry Disston, however, not only built a factory, he also shaped Tacony, the town in northeastern Philadelphia where the workers lived. The book describes the company's interdependence with the community and profiles the lifestyle that grew out of Disston's paternalistic blueprint for Tacony. Using original letter books, shop committee meeting notes, photographs, and a wealth of other documents, Harry

Silcox reveals Disston's highly sophisticated distribution and marketing system as well as a management system that unlike the one advocated by Frederick Winslow Taylor responded to the concerns of workers and foremen. Through two world wars, the Depression and the rise of unions, Disston's innovative business practices enabled the company to remain active and strong even when factories across the nation were failing. This study raises important questions about the demise of the factory system and its impact on urban communities and family life. The Disston company provides one example of how people could work and live together successfully within the larger framework of the factory system. *Making a Place for Community* Thad Williamson, David Imbroscio, Gar Alperovitz, 2003. The Life and Ideas of James Hillman Dick Russell, 2023-05-30. James Hillman, who died in 2011 at the age of eighty-five, has been described by poet Robert Bly as the most lively and original psychologist of the twentieth century. Based on author Dick Russell's interviews with Hillman and dozens of people who knew him, Volume Two of *The Life and Ideas of James Hillman* takes up Hillman's mid-life when he set about returning psychology to its soul-rich roots in Greek mythology and Renaissance esotericism. From his base teaching at Zurich's Jung Institute, we follow Hillman's growing international prominence as a maverick in the field, coinciding with his

relationship and eventual marriage to Patricia Berry They would be instrumental in formulating Archetypal Psychology along with a group of young compatriots in what became known as Spring House The new ideas taking shape moved psychology away from the dominant scientific medical model with its focus on treating the isolated individual expanding into the fertile realm of culture and the imagination Amid prodigious writings and lectures Hillman made mythology and even alchemy relevant to our times Delivering the prestigious Terry Lectures at Yale and being nominated for a Pulitzer Prize Hillman returned to America after living primarily in Europe for thirty years To the surprise of many he settled in Dallas and helped found an Institute of Humanities and Culture while taking up how to re imagine city planning Equally surprising was Hillman s subsequent move to rural Connecticut where he and Pat Berry resided in a nineteenth century farmhouse Starting in the mid 80s Hillman became a pioneering teacher in the mythopoetic men s movement alongside Robert Bly and Michael Meade where deep talk about fathers and sons and male female relationships offered a new kind of group therapy a cultural therapy As Thomas Moore said of Hillman he possessed a genius for taking any theme and shedding serious fresh light on it Along the way Hillman s insights came to encompass all of the arts a poetic basis of mind that connected him to many of the most influential artists and thinkers of the modern era

Something Coming Gail E. Husch, 2000 This major contribution to the study of antebellum religious art offers a detailed case study of American postmillennialism and its many visual expressions Treating paintings as intersections of cultural expression Gail E Husch begins with a single painting to spin out an interpretation in many directions from the specific aesthetic and social concerns of artist and patron to the wider political and cultural concerns of Americans in the mid 19th century Arguing that genuine apocalyptic faith was fundamental to American Protestants Husch shows how artists patrons and ordinary citizens actively engaged contemporary questions of peace and war freedom and slavery and the equality of human beings before God in their visual arts Part of an emerging revaluation of the role of the religious in American art Husch asks us to read ideas as they function in works rather than see images merely as passive illustrations of ideas Weaving images drawn from high and low culture politics and religion she develops a complex cultural narrative of the times thus showing the truth of one picture being worth a thousand words
