Ruskin After 200 Sara L. Maurer, Judith Stoddart, Deanna K. Kreisel, Amy Woodson-Boulton, 2025-04-22 This edited volume offers new models for engaging with the work of John Ruskin the Victorian art critic architectural and educational theorist amateur meteorologist and naturalist who gradually became an outspoken critic of capitalist economics and industrialization s toll on the environment Two hundred years after Ruskin s birth his relevance to art literature history architecture economics and natural science has not ebbed However the nature of Ruskin s relevance has evolved considerably This volume offers a cross section of current scholarship showing how a range of scholars continue to engage with Ruskin s work in their research The chapters provide a snapshot both of what scholars need from Ruskin now and how they continue to develop methodologies that allow them to keep in honest conversation with his writing work that is wide ranging visionary and nuanced but also elusive promiscuously mixing the symbolic and scientific and at times deeply marred by the shortcomings of sexism racism

and rigid hierarchical thinking
