

Why your first DSLR should be a Sony. The α (alpha) DSLR-A200 improves your image with 10.2 MP performance, high sensitivity, SteadyShot INSIDE™ in-camera stabilization, versatile Creative Style settings and up to 750-shot¹ Stamina II power – plus a spectacular array of Sony, Carl Zeiss® and Minolta α -mount lenses to broaden your creative horizons.

▲ Step-up

- **10.2 MP CCD**
Superb image quality gives you great DSLR shots right from the start, with a large APS-size CCD imager developed by Sony to expand dynamic range, minimize noise more effectively and provide greater detail for making big prints or cropping in tight on your subject.
- **Expanded ISO Sensitivity**
Broad sensitivity range from ISO 100 to ISO 3200 enables the α (alpha) DSLR-A200 to capture beautiful color images even in very dim light – with High ISO Noise Reduction technology that reduces picture noise artifacts at high-sensitivity ISO 1600 and ISO 3200 settings by eliminating noise from RAW data after analog-to-digital conversion.
- **SteadyShot INSIDE™ in-camera image stabilization**
A high-performance sensor detects vibrations and the image stabilization system automatically compensates. Because image stabilization is built into the α (alpha) DSLR-A200, every lens benefits – and with an advantage of from 2.5 to 3.5 stops, you can shoot effectively at higher shutter speeds even in very low light with minimum blur from shaky hands or fast-moving subjects.
- **BIONZ™ Image Processor**
The “brain” of the α (alpha) DSLR-A200 is the advanced Sony BIONZ™ Image Processor, using hardware-based Large Scale Integrated (LSI) circuitry to enhance images with rich tonal reproduction, improved white balance and exposure control, and expanded D-Range Optimizer capabilities. With 2-channel data transfer from CCD to processor, your camera can also respond faster.
- **Dynamic Range Optimizer**
To improve results with backlit subjects and recover details hidden in shadows or lost in glare, the α (alpha) DSLR-A200 provides Dynamic Range Optimizer at two levels: Normal DRO, to improve detail using standard gamma curves for fast shot-to-shot response time, or Advanced DRO, to adjust dynamic range area-by-area for the greatest precision.
- **Anti-Dust Technology**
Changing lenses in a DSLR can allow dust to enter the camera – so to keep the CCD imager cleaner for better pictures, the α (alpha) DSLR-A200 utilizes both static-free anti-dust coating on the CCD filter and anti-dust vibration that automatically shakes the CCD to dislodge dust each time the camera is shut off.
- **▲ Auto Pop-Up Flash**
In Auto or some scene selection modes, the camera flash automatically pops up and fires when needed to help you shoot more effectively. Flash is cancelled in Landscape, Sport or Sunset modes and in “Flash Off” position on the Exposure Mode dial.
- **Eye-Start Autofocus System**
It begins precision autofocus adjustments the moment you raise the camera to your eye – so unlike some DSLR cameras that don’t start focusing until the shutter button is half-pressed, the Sony α (alpha) DSLR-A200 never slows down your ability to catch fast action.
- **9-Point Center Cross AF Sensor**
A fast focus motor and improved focus control help bring images into sharp definition more quickly, with predictive focus control that automatically calculates the position of a fast-moving subject.
- **Flexible, Accurate Exposure Control**
A 40-segment Honeycomb sensing system provides multi-pattern measuring for superior exposure control accuracy – and you can also select center-weighted or spot metering modes. You’ll also have 6 preset White Balance control settings and RGB Histogram display to check color balance.
- **Scene Selection Modes**
Along with auto exposure, the α (alpha) DSLR-A200 gives you scene selection modes to optimize camera performance for Portrait, Landscape, Macro, Sports, Sunset and Night Portrait/ Night View situations.
- **Creative Style Settings**
To express your creativity and personal taste, you can adjust contrast, saturation and sharpness settings for any of 8 finishing styles – including Standard, Vivid, Portrait, Landscape, Night View, Sunset, B & W and Adobe RGB modes.
- **2.7" Clear Photo™ LCD Screen**
A large built-in screen with anti-reflective coating makes it easy to read camera setup menus even in bright sunlight and improves image quality when you check your shots.
- **Note:**
Sony Quick AF Live View is featured on DSLR-A300 and DSLR-A350. DSLR-A200 LCD can only provide menu display (during shooting) and image display (during playback).

ADDITIONAL FEATURES

- Index and Slide Show Display
- High-Resolution Thumbnails for PhotoTV HD Viewing²
- Function Guide Display
- Continuous Burst Mode at 3 Frames Per Second
- Stamina II Battery Power
- High-Capacity Media Options
