US Hegemony, American Troops Abroad and Burden-Sharing Nobuki Kawasaki, Takeshi Sakade, Hubert Zimmermann, 2024-12-03 Kawasaki Sakade Zimmerman and their contributors examine the historical development of burden sharing among the United States US and its allies after World War II looking at examples from Western Europe and East Asia Through a series of case studies the contributors to this volume identify the characteristics and historical transformations in the burden sharing relationships between the US and its allies In addition to diplomatic and security concerns they also look at the economic and financial dimensions of burden sharing and how all these elements are intertwined They also address the different dynamics of burden sharing between the US and Western Europe notably Germany and the United Kingdom UK on the one hand and between the US and East Asia particularly Japan and Korea on the other In particular they argue that while Western European countries provided most of the economic and political support for American policies until the 1960s the economic support from East Asian countries became much more important from the 1970s onwards This book is a valuable contribution to the literature on burden sharing and strategic alliance for scholars of international relations and the diplomatic history of the Cold War **Military Review**, 2017 **Military Flight Aptitude Tests, Fifth Edition: 6 Practice Tests + Comprehensive Review** Barron's Educational Series, Terry L. Transnational Film and the US Wars in Iraq & Afghanistan Marzena

Sokołowska-Paryż, Marek Paryż, 2025-01-15 This book offers insights into diverse non American national perspectives on the US led military interventions in Afghanistan and Iraq within the generic frames of the war film While the best known films about the post 9 11 wars in the Middle East are American productions various other national cinematographies have responded to these conflicts which is not surprising given the fact that international coalitions were formed to support the US military effort However non American war films about these US instigated interventions have received little attention outside their own national contexts This volume fills in the gap in the existing war film criticism by offering insights into how the Afghanistan War 2001 2021 and the Iraq War 2003 2011 have been represented in popular and documentary filmic productions in Iraq Afghanistan Great Britain Germany Denmark Poland Spain and Australia The contributions prove the need for transnationalism as an eye opening perspective on the war film genre by underscoring nationally specific social political and aesthetic differences alongside important correspondences between cultural productions across nations Transnational film and the US wars in Iraq and Afghanistan will be a key resource for scholars and researchers of film studies media and cultural studies film history war studies literary criticism and sociology It was originally published as a special issue of Journal of War Culture Studies

Nexus of Global Jihad Assaf Moghadam, 2017-05-30 Leading jihadist groups such as al Qaeda and the Islamic State dominate through cooperation in the form of knowledge sharing resource sharing joint training exercises and operational collaboration They build alliances and lesser partnerships with other formal and informal terrorist actors to recruit foreign fighters and spread their message worldwide raising the aggregate threat level for their declared enemies Whether they consist of friends or foes whether they are connected locally or online these networks create a wellspring of support for jihadist organizations that may fluctuate in strength or change in character but never runs dry Nexus of Global Jihad identifies types of terrorist actors the nature of their partnerships and the environments in which they prosper to explain global jihadist terrorism s ongoing success and resilience Nexus of Global Jihad brings to light an emerging style of networked cooperation that works alongside interorganizational terrorist cooperation to establish bonds of varying depth and endurance Case studies use recently declassified materials to illuminate al Qaeda s dealings from Iran to the Arabian Peninsula and the informal actors that power the Sharia4 movement The book proposes policies that increase intelligence gathering on informal terrorist actors constrain enabling environments and disrupt terrorist networks

Office of Management and Budget, 2014 **International Law and the Use of Force** Christine D. Gray, 2018 This book explores the large and controversial subject of the use of force in international law It examines not only the use of force by states but also the role of the UN in peacekeeping and enforcement action and the increasing role of regional organizations in the maintenance of international peace and security The UN Charter framework is under challenge Russia's invasion of Georgia and intervention in Ukraine the USA's military operations in Syria and Saudi Arabia's campaign to restore the government of Yemen by force all raise questions about the law on intervention The war on terror that began after the 9/11 terrorist attacks on the USA has not been won It has spread far beyond Afghanistan it has led to targeted killings in Pakistan Somalia and Yemen and to intervention against ISIS in Iraq and Syria Is there an expanding right of self defence against non state actors Is the use of force effective The development of nuclear weapons by North Korea has reignited discussion about the legality of pre-emptive self defence The NATO led operation in Libya increased hopes for the implementation of responsibility to protect but it also provoked criticism for exceeding the Security Council's authorization of force because its outcome was regime change

UN peacekeeping faces new challenges especially with regard to the protection of civilians and UN forces have been given revolutionary mandates in several African states But the 2015 report *Uniting Our Strengths* reaffirmed that UN peacekeeping is not suited to counter terrorism or enforcement operations the UN should turn to regional organizations such as the African Union as first responders in situations of ongoing armed conflict *Nanoweapons* Louis A. Prescott,2018-11-21 The gender differentiated and more severe impacts of armed conflict upon women and girls are well recognised by the international community as demonstrated by UN Security Council Resolution UNSCR 1325 on Women Peace and Security and subsequent resolutions Similarly the development community has identified gender differentiated impacts upon women and girls as a result of the effects of climate change Current research and analysis has reached no consensus as to any causal relationship between climate change and armed conflict but certain studies suggest an indirect linkage between climate change effects such as food insecurity and armed conflict Little research has been conducted on the possible compounding effects that armed conflict and climate change might have on at risk population groups such as women and girls *Armed Conflict Women and Climate Change* explores the intersection of these three areas and allows the reader to better understand how military organisations across the world need to be sensitive to these relationships to be most effective in civilian centric operations in situations of humanitarian relief peacekeeping and even armed conflict This book examines strategy and military doctrine from NATO the UK US and Australia and explores key issues such as displacement food and energy insecurity and male out migration as well as current efforts to incorporate gender considerations in military activities and operations This innovative book will be of great interest to students and scholars of international relations international development international security sustainability gender studies and law
