Reilly, 2002 Investment Analysis & Portfolio Management Frank K. Reilly, Keith C. Brown, Brindha Gunasingham, Asjeet Lamba, Dr Frank Elston, 2019-11-19 This first Asia Pacific edition of Reilly Brown's *Investment Analysis and Portfolio Management* builds on the authors' strong reputations for combining solid theory with practical application and has been developed especially for courses across the Australia New Zealand and Asia Pacific regions. The real world illustrations and hands-on activities enhance an already rigorous empirical approach to topics such as investment instruments, capital markets, behavioural finance, hedge funds, and international investment. The text also emphasises how investment practice and theory are influenced by globalisation. **Investment Analysis and Portfolio Management** Frank K. Reilly, 1979 The purpose of this book is to help you learn how to manage your money to derive the maximum benefit from what you earn. Mixing investment instruments and capital markets with the theoretical detail on evaluating investments and opportunities to satisfy risk return objectives along with how investment practice and theory is influenced by globalization leaves readers with the mindset on investments to serve them well. The material is intended to be rigorous and empirical yet not overly quantitative. We continue with unparalleled international coverage, newly rewritten and reorganized derivatives material to be more intuitive and clearer, three additional chapters on derivatives pricing for those who want more detail, rewritten material on multifactor models of risk and return, and new CFA problems for more practice on computations concerning investment decisions. To manage money and investments, one needs to learn about investment alternatives and develop a way of analyzing and thinking about investments that will be of benefit and allow a foundation as new tools and investment opportunities become available. Reilly Brown provide the best foundation used extensively by professionals, organizations, and schools across the country. A great source for those with both a theoretical and practical need for investment expertise. **Investment Analysis and Portfolio Management** Brindha Gunasingham, Frank K.
