Make Something Real: Artwork, 2022 - 2024 Tiffany Gholar, 2025-08-16 Is a life put on hold still a life worth living Torn between wanting to participate in art shows and not wanting to get exposed to COVID I was haunted by the feeling that life was passing me by I felt like I was living my life in captivity missing all its forgone pleasures This wasn t the future I wanted This wasn t the world I wanted to live in I wasn t the woman I wanted to be Being an artist was a leap of faith and I was getting tired of jumping In a world of artifice and denial what still mattered The pursuit of normal at any cost had led to a culture of complacency and resignation warnings unheeded lessons unlearned The aftermath of an ongoing crisis that most of the world deliberately ignored was a time of missed opportunities and impossible choices Just when I needed them the most for publicity the internet platforms I had come to rely on made it harder for my work to be seen as tech disruption left upheaval and destruction in its wake Would my newfound social media sites and online communities help me connect with a new audience or would my participation in them only further tech oligarchs nefarious goals Though making art is my escape this book is also about what I was trying to escape from Finding solace in creating art in a world on the precipice of disaster I have made this book an archive of three years of art grief and grievances

Black,2012-09-18 How it all Started It all started or I guess you could say it did on the last week of summer when most kids would be ending their vacations at the beach or getting back home from visiting their relatives and of course dreading the thought of the coming of the new school year However some are not quite as lucky in that area as others are like those who attended the same school as the main character of this book It was on that day that a thirteen year old boy woke up and

stared out of the window of his small bleak room His skin was a light brown almost caramel complexion and his hair was short and black pressed down against his scalp His eyes were a dark brown with a ring of black edged around the Pupil If you looked closely in the center of the darkness there was a small spark of golden light barely noticeable like staring at the heart of the Universe through an infinite expanse of space **Effective Magazine Advertising** Francis Bellamy,1909
