Gouveia, 2019-04-25. This volume collects twenty original essays on the philosophy of film. It uniquely brings together scholars working across a range of philosophical traditions and academic disciplines to broaden and advance debates on film and philosophy. The book includes contributions from a number of prominent philosophers of film including Noël Carroll, Chris Falzon, Deborah Knight, Paisley Livingston, Robert Sinnerbrink, Malcolm Turvey and Thomas Wartenberg. While the topics explored by the contributors are diverse, there are a number of thematic threads that connect them. Overall, the book seeks to bridge analytic and continental approaches to philosophy of film in fruitful ways. Moving to the individual essays, the first two sections offer novel takes on the philosophical value and the nature of film. The next section focuses on the film as philosophy debate. Section IV covers cinematic experience while Section V includes interpretations of individual films that touch on questions of artificial intelligence, race and film, and cinema's biopolitical potential. Finally, the last section proposes new avenues for future research on the moving image beyond film. This book will appeal to a broad range of scholars working in film studies, theory and philosophy.

Alien Encounters, Judy L. Clarke, 2011-06-21. Aliens first visited Judy Clarke in 1952 when she was just nine months old. Since then, the visits have occurred approximately once every two years, and though she does not recall every detail, she does carry physical reminders and specific vivid memories. Fear is often associated with beings not of the human world, but in this, Clarke's experiences are very different. In *Alien Encounters*, A Lifetime Deal, writer, counselor, healer, and nurse Judy L. Clarke reveals her enlightening lifelong relationship with aliens in exacting, evidence-laden detail. She helps us to recognize the truth in our hearts and souls and see that there is nothing to fear. The powers that be in our world, steeped as they are in ignorance, aggression, and greed, are quick to react to the stories of abductees with laughter, ridicule, disbelief, and horror. By that measure, it is clear humans are not ready for the greater destiny shared by the many beings dwelling beyond earth, in space, and in the spiritual plane. But the aliens in our skies are patiently waiting for us, watching us, and yes, implanting a select few of us with special gifts to help us be better people. Gifts like kindness, healing, empathy, creativity, clairvoyance, clairaudience, telepathy, and closeness to the God within. Clarke's experiences, shown encounter by encounter and lesson by lesson, lead us to understand that if we open our eyes, hearts, and
