King, 2020-12-01 The latest entry in Laurie R King and Leslie S Klinger's popular Sherlock Holmes inspired mystery series featuring fifteen talented authors and a multitude of new cases for Arthur Conan Doyle's most acclaimed detective Sherlock Holmes has not only captivated readers

for more than a century and a quarter he has fascinated writers as well. Almost immediately the detective's genius, mastery and heroism became the standard by which other creators measured their creations and the friendship between Holmes and Dr Watson served as a brilliant model for those who followed Doyle. Not only did the Holmes tales influence the mystery genre but also tales of science fiction, adventure and the supernatural. It is little wonder then that when the renowned Sherlockians Laurie R King and Leslie S Klinger invited their writer friends and colleagues to be inspired by the Holmes canon, a cornucopia of stories sprang forth with more than sixty of the greatest modern writers participating in four acclaimed anthologies. Now King and Klinger have invited another fifteen masters to become In League with Sherlock Holmes. The contributors to the pair's next volume due out in December 2020 include award-winning authors of horror, thrillers, mysteries, westerns and science fiction, all bound together in admiration and affection for the original stories. Past tales have spanned the Victorian era, World War I, World War II, the post-war era and contemporary America and England. They have featured familiar figures from literature and history, children, master sleuths, official police, unassuming amateurs, unlikely protagonists, even ghosts and robots. Some were new tales about Holmes and Watson, others were about people from Holmes's world or admirers of Holmes and his methods. The resulting stories are funny, haunting, thrilling and surprising. All are unforgettable. The new collection promises more of the same. The Sherlock Holmes Journal, 2010 **The BFI**

Charles A. Jones, 2013. This book raises questions about the just war tradition through a critical examination of its revival and by juxtaposing it with a literary phenomenology of war. Recent public debate about war has leaned heavily on a just war tradition dating back many centuries. This book examines the recent revival of that tradition in the United States and Britain, arguing that it is less coherent and comprehensive as an approach to the ethical issues arising from war than is generally supposed and that it is inconsistent in important ways with the theology on which it was originally based. A second line of criticism is mounted through close readings of modern texts in English from Britain, Australia and the USA that together

constitute a more subjective bottom up understanding of the moral dilemmas of military life In this second tradition the task of representing war is seen as more problematic and its rationality more questionable than in just war discourse Works by William Shakespeare Sir Walter Scott James Fennimore Cooper Stephen Crane John Buchan Robert Louis Stevenson Joseph Conrad Tim O Brien and Kurt Vonnegut are featured The book will be of great interest to students and scholars of security studies military studies theology and international relations
