technology and the drug Viagra which marked its first full year on the US market in 1999 Benes shows us how so many of the strangest features of culture in 1999 predicted and influenced American life today This wild ride through pop culture uncovers the connections between the kayfabe of WWE and the theatrics of politics between the faddish obsession with Beanie Babies and with NFTs between faithful fans and political loyalists between violent video games and society's scapegoats and much more 1999 is not just a nostalgic look at the past It is also a window into our contentious present
