 AND PROSPECTS IN AFRICAN EDUCATION SYSTEMS** SOJI ONI (Ph.D.),2013 Challenges and Prospects in African
 Education System The general idea this book is trying to disseminate is to inform readers about the compelling challenges
 and prospects in African system of education As we all know when issues of Africa educational system is raised the first set of
 thoughts that come to mind is decline in standard deterioration of facilities examination malpractices cult crises or school
 based violence shortage of teachers underqualified teachers and poor teachers performance which results in poor learning
 standards lack of classroom discipline that is exacerbated by insufficient resources and inadequate infrastructure failure of
 appropriate inspection and monitoring and confusion caused by changing curricula without proper communication and
 training All these have led to massive demoralization and disillusionment among teachers and a negative and worsening
 perception of African system of education This therefore calls for in depth analysis aimed at tutoring every stakeholder in
 education on how their action and inactions have individually and collectively contributed to the collapsing state of education
 in Africa However the prospect is that Africa s recovery and sustainable development can only be guaranteed through
 expansion and sustenance of both quantitative and qualitative of the continent s stock of human capital through education In
 order for education to realize its key role in development it must be provided to the younger segments of African society as
 quickly as human and financial resources permit with the ultimate goal of developing a comprehensive meaningful and
 sustainable system of education at all levels and for all age groups This is the message that this book puts across in the six
 knitted sections **Climatological Data** United States. Weather Bureau,1958 **PTC Cost Effectiveness and Efficiency
