Uae Economic Report 201:

United Arab Emirates Society in the Twenty-first Century Jamal Sanad Al-Suwaidi, 2018-02-20 In light of the radical transformations and changes that the world witnesses on all levels research in the field of social issues is gaining increased prominence particularly amid different sources of danger that threaten social security in countries primarily due changes in the nature of warfare and conflicts the spread of extremism and terrorism and the emergence of religious sectarian doctrinal and racial tensions Moreover the unprecedented technological transformations in light of the fourth industrial revolution 4IR with its social effects can compromise the stability and security of societies Therefore in this book I focus on studying UAE society in an ever changing world from a comprehensive perspective that encompasses political security economic social cultural and technological aspects From an early stage in my academic career I have given special attention in my books research papers and studies to issues of national security at the forefront of which is social security This stems from my belief that social security is one of the most important and critical aspects of national security in its comprehensive sense Furthermore social security is also closely associated with all other political economic cultural and stability aspects of national security This book includes seven chapters along with an introduction and a conclusion Chapter One deals with the experience of the Union of the UAE and how it has affected UAE society Chapter Two deals with UAE society in a changing regional and international environment Chapter Three examines the UAE s economic vision to prepare for the post oil era which is based primarily on knowledge and innovation Chapter Four addresses education and its importance in building national human capacities and resources Chapter Five discusses national identity its significance and sources of threat Chapter Six examines balanced political development and the guarantee it gives to enable political stability in the UAE The last chapter Chapter Seven discusses UAE society and global technological changes in terms of challenges and opportunities The book ends with a conclusion in which I call for more attention to studies pertaining to UAE society in the coming years because the current changes in the local regional and global environments have several implications for this society Therefore it is important to study these implications and anticipate their future trajectories Handbook of Research on Sociopolitical Factors Impacting Economic Growth in Islamic Nations Ozdemir, Suleyman, Erdogan, Seyfettin, Gedikli, Ayfer, 2017-07-12 Over the years the dissemination of technology across society has increased exponentially As technology continues to improve worldwide connectivity positive relations between countries is paramount to achieving cultural and economic progression The Handbook of Research on Sociopolitical Factors Impacting Economic Growth in Islamic Nations is a pivotal scholarly resource on the current factors impacting international relations between Islamic countries Featuring extensive coverage on sociopolitical structures economic sector analysis sociocultural properties and political policies this publication is ideal for academicians students and researchers interested in discovering more about the current trends and techniques in the economic infrastructures of Islamic nations Normative Tensions Kevin W. Gray, 2022-06-01 The

expansion of Western education overseas has been both an economic success if the numbers of American European and Australian universities setting up campuses in Asia and the Middle East is a measure and a source of consternation for academics concerned with norms of free inquiry and intellectual freedom Faculty at Western campuses have resisted the new satellite campuses fearing that colleagues on those campuses would be less free to teach and engage in intellectual inquiry and that students could be denied the free inquiry normally associated with liberal arts education Critics point to the denial of visas to academics wishing to carry out research on foreign campuses the sudden termination of employment at schools in both the Middle East and Asia or the last minute cancellation of courses at those schools as evidence that they were correctly suspicious of the possibility that liberal arts programs could exist in those regions Supporters of the project have argued that opening up foreign campuses brings free inquiry to closed societies improves educational opportunities for students who would otherwise be denied them or perhaps less frequently that free inquiry will be no more pressured than in the United States or Western Europe

Normative Tensions examines the consequences not only of expansion overseas but the increased opening of universities to foreign students

The Report: Ajman 2025 Oliver Cornock, Ajman is accelerating economic diversification through industrial growth tourism and innovation driven development The emirate s forward looking policies including Ajman Vision 2030 focus on sustainability digital transformation and investment attraction to boost its position on the global map

United Arab Emirates International Monetary Fund. Middle East and Central Asia Dept.,2017-07-17 This paper outlines a consolidated Medium Term Fiscal Framework MTFF which is comprehensive and forward looking could set a clear direction for fiscal policy for the country as a whole and better align resource allocation with local and national developments plans underpinned by goals embodied in the Vision 2021 High quality of public financial management systems overall is also key ingredient of an appropriate MTFF The framework could consider explicitly expenditure needs in critical areas such as education and health care Monitoring of contingent liabilities needs to be strengthened including covering private and public partnerships PPPs and government related enterprises GREs including their global subsidiaries Data sharing across all levels of governments including the central bank could also be strengthened The federal government and the Emirates of Abu Dhabi and Dubai have started using MTFFs to inform their fiscal policy choices albeit to different degrees

The Armed Forces: Instrument of Peace, Strength, Development and Prosperity Joseph Babatunde Fagoyinbo,2013-05-28 Across the ages technological developments have been accelerated by the military This results from the fact that able bodied vibrant youths are generally involved and are also exposed to high tech training prevailing at their times for assignments defence and security that are essential but not desired They form the Armed Forces for the nations Such brilliant military officers like Caesar and Napoleon made their marks and in contemporary times the Armed Forces of United States France Britain Australia etc are making remarkable contributions to technological developments Such infrastructure as the Internet the GPS and the cell phones are products that have significant military contributions This book

scans across the major regions of the world highlights the efforts of representative countries in the regions and observes that nations that have harnessed the efforts of their Armed Forces have progressively developed. It is also observed that developments in America and Europe though not entirely dependent on their Armed Forces have been greatly affected by their efforts. In Asia such countries as the People's Republic of China, Brazil, India, Pakistan, and Singapore utilise the human and material resources within the Armed Forces for national growth and cohesion. Development effort is least in the African Region except South Africa and Egypt notwithstanding the high potentials as exhibited by Nigeria's Armed Forces. Although attempts to industrialise through the Armed Forces may be able to create economic development for developing nations, such factors as historical background, economic resources, political climate, government policies, and infrastructure are equally important. Economic development programme of an aspiring country should i promote education and access to knowledge ii aspire to economic self sufficiency in economic power iii allow and promote private sector and foreign participation in defence production research and development iv commit itself to the establishment and support of defence industries v indigenise defence programmes establish a balance between military and economic development and vi mobilise the nation's economy through technology partnership with the private sector and foreign investors

The Report: Dubai 2018, Dubai has continued to meet its targets in becoming the global capital of Islamic finance, nearly doubling the number of sukuk (Islamic bonds) listings on its exchanges since 2017. Furthermore, eased policy restrictions to encourage foreign investment and the 2019 budget's continued commitment to infrastructure development ahead of Expo 2020 are expected to continue driving economic activity. As one of the most diversified economies in the region, Dubai continues to present growth opportunities in various sectors including tourism, logistics, manufacturing, and education. Although the emirate has benefitted from its proximity to oil and gas fields, Dubai is right at the forefront of the emerging cleaner energy world and developing and promoting renewable technologies including solar energy and electric vehicles.

From Oil to Knowledge Ibrahim Alfaki, Allam Ahmed, 2017-09-08. Over reliance on oil challenges the long term sustainability of an economy. The UAE's government has placed considerable focus on a comprehensive strategic planning exercise to transform the country's economic structure from relying heavily on hydrocarbon resources to becoming a knowledge based economy. Non oil is to account for 80% of the country's economy by 2021. From Oil to Knowledge examines the role of this major powerhouse of the Arab World to transform itself into a leader in the adoption of science technology and innovation to drive economic success on the international stage. In this first book to present and critically evaluate the extent of the UAE's success in diversifying its economy and implementing the principles and approaches of a Knowledge Economy, the authors identify the achievements of the government to date and the areas of further development. From Oil to Knowledge will be utilized as a guide by policymakers and senior managers to enhance their ability to think strategically towards implementing the pillars of a Knowledge Economy within their own organisations and nation states.

Arab Oil Policies in the 1970s Yusuf

Sayigh, 2015-05-15 Until 1973 few people either in the advanced industrial countries or in the developing countries of the Third World thought seriously on the issues and complexities involved in the production and marketing of the oil on which they relied. It was only with the sudden steep increases in oil prices that the oil industry became a matter of general discussion and the Organisation of Petroleum Exporting Countries (OPEC) became a front page topic for analysis and comment. However, real understanding of the organisation and its policies did not accompany this rush of interest and much confusion has followed. In particular, the Arab exporters have received the weight of the criticism although they have only a share in the market and not a monopoly. This book attempts to instil a greater mutual understanding between oil exporters and importers although it is not a wholesale endorsement of Arab policies by outlining the major policy areas in this field. It looks at new policy options and their implications in exploration, marketing and pricing and at downstream operations such as the petrochemical and gas industries. In conclusion, this study identifies the wide ranging opportunities that the new oil policies have opened up for the Arab countries in the national, regional and international context and assesses and clarifies the responsibilities which accompany this success. First published in 1983. *Innovation and Entrepreneurship in Education*

Pantelis M. Papadopoulos, Roland Burger, Ana Faria, 2016-12-19 This book explores the concepts for innovation and entrepreneurship through multiple lenses in the context of education. Mixing equal parts theory and practice, this volume takes a closer look on how innovation and entrepreneurship are approached around the globe as disciplines, methods and mindsets. The Transformation of the Gulf David Held, Kristian Ulrichsen, 2013-03-01 This book examines the political, economic and social transformation of the six member states of the Gulf Cooperation Council (GCC) and the ways in which these states are both shaping and being reshaped by the processes of globalisation. Adopting a multidisciplinary approach, the volume combines thematic chapters focusing on issues such as globalisation, nationalism and identity, political thinking and economic diversification and redistributive policymaking with empirical chapters studying specific aspects of reform and change: the emergence of governing markets, the rise of Sovereign Wealth Funds, Islamic Finance, the relationship between energy and sustainability, trends in foreign aid, donorship, strategic and foreign policy formulation. Contributions from experts in the field provide cutting edge snapshots of a region in flux and collectively offer a roadmap of its repositioning in the global order, examining the interaction between global processes and internal dynamics of change and resistance that inject new dimensions into debates over the loci of local and global transformations and the manner in which each plays off the other. Situating the Gulf States firmly within their global twenty first century context, this book will hold particular appeal to theorists of globalisation as well as to scholars of comparative politics, international political economy and area studies.

The Report: Abu Dhabi 2016 Oxford Business Group, 2016-05-09 Subdued oil prices prompted a trimmed federal budget for 2016 as the UAE, like other countries in the region, tightened its belt in response to falling hydrocarbons revenues. However, a sustained focus on economic diversification and targeted investment in Abu Dhabi's key non-oil sectors in recent

years means the emirate is well positioned to weather the storm Looking forward plans for future development are mapped out in Abu Dhabi Economic Vision 2030 a comprehensive economic policy document that aims to reduce dependence on oil and gas thereby creating a more sustainable knowledge based economy for the emirate and its inhabitants Aided by hydrocarbons reserves that are among the world s largest and substantial financial resources Abu Dhabi has built up a strong foundation to become a regional leader and an increasingly important global player in a wide variety of sectors including oil and gas financial services health care aviation and renewable energy **Economic Outlook** ,2009 *The Report: Ras Al Khaimah 2007* , **From Reversal of Fortune to Economic Resurgence** Banji Oyelaran-Oyeyinka,Oyebanke Abejirin,2024-11-05 This book examines Nigeria Africa s largest economy and most populous country and Asia in comparative development and sectoral perspectives We traced the divergent growth in wealth between the two regions It takes a novel approach of matching key growth sectors across five selected Asian countries and Nigeria in a cross regional context We found that state and institutional capabilities underlying the generation and diffusion of industrial and technological knowledge in Asia distinguished it from Africa We employ quantitative and qualitative methods including case studies and statistical econometric methods to analyze factors that separate the sample countries that made rapid economic progress in catching up and those that tend to be stagnating and falling behind Progress made by Asian countries over the last five decades was due in large part to their pursuit of industrialization technological acquisition underpinned by leadership good governance and policies in the right institutional contexts The four Asian countries compared with Nigeria are Indonesia Malaysia South Korea Vietnam and Bangladesh There was not one grand development formula however the strategy broadly consisted of industrial vertical diversification as well as horizontal diversification in agriculture Building industrial capabilities that enable export competitiveness was critical Again while leadership is not usually included in factors of growth the book devotes a chapter to Leadership and Industrialization and another to State Capacity Industrialization and Economic Growth African countries on the contrary took the low road in exporting minerals and raw agricultural commodities with little value addition in the process Africa experienced a reversal of fortune The African condition is manifestly a Reversal of Fortune because in the 1950s they were ahead of or equal to Asia in per capita income as well as in other development metrics We carried out empirical measurement of Reversal of Fortune manifested in economic social technological and industrial conditions by analyzing the disparities in development metrics particularly the levels and rates of growth of national incomes industrialization rates and Human Development Index HDI The differences are stark

Overseas Business Reports ,1981 **Petroleum and the Economy of the United Arab Emirates** Māni' Sa'īd 'Utaybah,1977 Arab Oil & Gas ,2001 **The Gulf Stock Exchange Crash** Fida Darwiche,2020-09-16 The collapse of Souq Al Manakh in Kuwait in August 1982 was the most spectacular financial crash of recent years The market had developed as a parallel stock exchange dealing in the shares of Gulf companies not resident in Kuwait Fuelled by manic

speculation the market grew at a phenomenal rate throughout 1981 and early 1982 Inexperienced investors gambled huge sums on the shares of shell companies promoted largely for share speculation At the height of the market US 92 billion was outstanding on nearly 30 000 postdated cheques the usual form of payment used in the market The financial crisis created by the collapse of the Souq Al Manakh threatened the stability of Kuwait The government was forced to intervene and absorb the major part of the loss This book first published in 1986 traces the growth of the stock market and analyses its collapse It also discusses in detail the wider impact of this debacle on the economic life of the Gulf Handbook of Land and Water Grabs in Africa John Anthony Allan, 2013 Four other themes will be addressed politics economics the environment and the history of land investments in sub Saharan Africa
