The old man's been stealin'
She's holding her grievance for a hundred-odd
years
We all keep believin'
That history repeats itself **year after year**

All I fear's that the future is worse
We have to give in to the hundred-year curse
Sweat in the sun like we're digging a grave
Dig deep enough and our fortune we'll save

(chorus)

If only, if only

The woodpecker sighs
The bark on the trees was as soft as the
skies

As the wolf waits below hungry and lonely
He cries to the mo-oo-n

If only, if only

Chasing the sky
A beautiful wife
You'll make mistakes
And it's my **back that breaks**
And **forever my past steals my life**
To submission I'm beat
But there's hope beneath these feet

Blisters and blood
And the sun makes you blind
Don't let it eat
Till it can't help but be kind
Cause you know what's important
With your back to the wall
You can break metal chains
And you're friends don't let you fall

(chorus)

I'm a soul
But I find myself lent
That is no use
When I'm **finding my history, finding my history**
I am no plant, I'm more like a feather
That is no use
When I'm **finding my history, finding my history**
I am no plant, I'm more like a feather
But I can't fly away without finding myself

(chorus)

(repeat chorus)

The English Record ,2005 **Give Peace a Chant** Dario Martinelli,2017-02-13 This monograph offers a unique analysis of social protest in popular music It presents theoretical descriptions methodological tools and an approach that encompasses various fields of musicology cultural studies semiotics discourse analysis media studies and political and social sciences The author argues that protest songs should be taken as a musical genre on their own He points out that the general approach when discussing these songs has been so far that of either analyzing the lyrics or the social context For some reason the music itself has been often overlooked This book attempts to fill this gap Its central thesis is that a complete overview of these repertoires demands a thorough interaction among contextual lyrical and musical elements together To accomplish this the author develops a novel model that systemizes and investigates musical repertoires The model is then applied to four case studies those too chosen among topics that are little or not at all frequented by scholars
