Sonlight Instructors Guide Science F:

100 Top Picks for Homeschool Curriculum Cathy Duffy, 2005 A critical volume for the homeschooling community that helps parents make informed choices regarding learning styles and curriculum

Teaching Numeracy Margie Pearse, K. M. Walton, 2011-03-23 Do some of your students arrive at wildly wrong answers to mathematical problems but have no idea why? If so, they are not alone. Many students lack basic numeracy, the ability to think through the math logically, solve problems and apply it outside of the classroom. This book outlines nine critical thinking habits that foster numerate learning and details practical ways to incorporate those habits into instruction. Referencing the new common core standards, NCTM standards and established literacy practices, the authors include how to use this in my math class tomorrow, applications throughout the book which show you how to monitor and repair students' understanding, guide students to recognize patterns, represent mathematics non-linguistically, encourage questioning for understanding, develop students' mathematics vocabulary, create a collaborative environment. Latter chapters show how to develop numeracy-rich lesson plans and provide several ready-to-use models with clear directions and student handouts. The book's practices, activities and problems will help you move your students from simply doing the math to a deeper understanding of how to think through the math.

The Big Book of Home Learning Volume 1 Getting Started Mary Pride, 2000-09

Christian Home Educators' Curriculum Manual Cathy Duffy, 1995 The premiere guide for choosing homeschool curriculum. For beginners or veterans, Cathy helps you wade through the curriculum jungle to choose what's right for each of your children. Reviews of hundreds of books, games, videos, computer programs, parent helps and much, much more for all subjects. Learning styles: Cathy helps you determine each child's learning style, then choose methods and resources that fit each child. What your child needs to know: what is typically taught at each grade level. Which resources allow your children to work independently, which work best taught one-on-one. Identifying and dealing with learning disabilities, plus a list of consultants for extra help. Testing: the good and bad of testing, different kinds of tests, where to get them, testing services. Addresses, phone numbers, faxes, e-mail and web sites for all publishers and distributors. How to consolidate your shopping and save shipping costs.
