Foundations of Speech-to-Speech Translation Wolfgang Wahlster,2013-04-17 In 1992 it seemed very difficult to answer the question whether it would be possible to develop a portable system for the automatic recognition and translation of spontaneous speech Previous research work on speech processing had focused on read speech only and international projects aimed at automated text translation had just been terminated without achieving their objectives Within this context the German Federal Ministry of Education and Research BMBF made a careful analysis of all national and international research projects conducted in the field of speech and language technology before deciding to launch an eight year basic research

lead project in which research groups were to cooperate in an interdisciplinary and international effort covering the disciplines of computer science computational linguistics translation science signal processing communication science and artificial intelligence At some point the project comprised up to 135 work packages with up to 33 research groups working on these packages The project was controlled by means of a network plan Every two years the project situation was assessed and the project goals were updated An international scientific advisory board provided advice for BMBF A new scientific approach was chosen for this project coping with the complexity of spontaneous speech with all its pertinent phenomena such as ambiguities self corrections hesitations and disfluencies took precedence over the intended lexicon size Another important aspect was that prosodic information was exploited at all processing stages *The Athenaeum* ,1847 Crafting Your Thesis Johan Alvehus,2024-07-12 At the beginning of writing a thesis many questions arise for example How do I know that I have formulated a relevant research problem Have I chosen the right empirical method Are interviews or observations appropriate How should I structure my text to get my point across in the best way What exactly is a theory How can the quality of my work be assessed *Crafting Your Thesis* is a broad and accessible handbook in qualitative methods that gives you clear and concise answers to these questions and many more The book can be used both in introductory university courses where you as a student encounter questions of method for perhaps the first time and right up to Master's thesis level where it gives a quick overview of different available qualitative methods and highlights questions that must be dealt with when crafting the thesis *The Athenæum* ,1846 Nationalism and Internationalism Intertwined Pasi Ihalainen,Antero Holmila,2022-03-11 It is commonplace that the modern world is more international than at any point in human history Yet the sheer profusion of terms for describing politics beyond the nation state including international European global transnational and cosmopolitan among others is but one indication of how conceptually complex this field actually is Taking a wide view of internationalism in Europe since the eighteenth century *Nationalism and Internationalism Intertwined* explores discourses and practices to challenge nation centered histories and trace the entanglements that arise from international cooperation A multidisciplinary group of scholars in history discourse studies and digital humanities asks how internationalism has been experienced understood constructed debated and redefined across different European political cultures as well as related to the wider world **The Annual American Catalogue** ,1898 **Congressional Record** United States.
