*Reworking Japan* Nana Okura Gagné, 2021-01-15 *Reworking Japan* examines how the past several decades of neoliberal economic restructuring and reforms have challenged Japan's corporate ideologies gendered relations and subjectivities of individual employees With Japan's remarkable economic growth since the 1950s the lifestyles and life courses of salarymen came to embody the New Middle Class family ideal However the nearly three decades of economic stagnation and reforms since the bursting of the economic bubble in the early 1990s has intensified corporate retrenchment under the banner of neoliberal restructuring and brought new challenges to employees and their previously protected livelihoods In a sweeping appraisal of recent history Gagné demonstrates how economic restructuring has reshaped Japanese corporations workers and ideals as well as how Japanese companies and employees have resisted and actively responded to such changes Gagné explores Japan's fraught and problematic transition from the postwar ideology of companyism to the emergent ideology of neoliberalism and the subsequent large-scale economic restructuring By juxtaposing Japan's economic transformation with an ethnography of work and play and individual life histories Gagné goes beyond the abstract to explore the human dimension of the neoliberal reforms that have impacted the nation's corporate governance socioeconomic class workers subjectivities and family relations *Reworking Japan* with its firsthand analysis of how the supposedly hegemonic neoliberal regime does not completely transform existing cultural frames and social relations will shake up preconceived ideas about Japanese men and the social effects of neoliberalism
