Poor's Cumulative Service ,1928 **Liquor and the Liberal State** Dan Malleck,2022-05-01 Cultural pastime profitable industry or harmful influence on the nation Liquor was a tricky issue for municipal provincial and federal governments after Confederation Liquor and the Liberal State traces how the Ontario provincial government s takeover of liquor regulation in the late nineteenth and early twentieth centuries involved both discrete local politics and expansive constitutional questions Dan Malleck explores how notions of individual freedom equality and property rights were debated challenged and modified in response to a vocal prohibitionist movement and equally vocal liquor industry While the liquor licensing regime helped build a vast patronage base for the governing Liberal Party some believed it exceeded the constitutional authority of the province The drink question became as political as it was moral a key issue in the establishment of judicial definitions of provincial and federal rights and ultimately in the crafting of the modern state This lively and meticulous work demonstrates the challenges governments faced when dealing with the seemingly simple but tremendously complicated alcoholic beverage *Hard Times* Barbara Kellerman,2014-10-15 A highly perceptive analysis of the crisis of leadership in 21st century America written in an exhilaratingly readable style Archie Brown Oxford University author of *The Myth of the Strong Leader* Selected by Choice as an Outstanding Academic Book Leadership has never played a more prominent role in America s national discourse and yet our opinions of leaders are at all time lows Private sector leaders are widely seen as greedy to the point of being corrupt Public sector leaders are viewed as incompetent to the point of being inept And levels of trust in government have plummeted As the title of this book conveys leaders in America are experiencing hard times Barbara Kellerman argues that we focus on leaders and even on followers while ignoring an essential element of leadership context This book is a corrective It enables leaders to track the terrain that they must navigate in order to create change Rather than a handy dandy manual on what to do and how to do it *Hard Times* is structured as a checklist Twenty four brief sections cover key aspects of the American landscape They trace evolutions and revolutions that have revised our norms transformed our populations and institutions and shifted our culture Kellerman s crash course on context reveals how significant it is to leadership Clearer still is the fact that leadership is more difficult than it has ever been It is context that explains why leadership is so fraught with frustration And it is context that makes evident why leadership will be better exercised if it is better understood Calling out patterns that emerge from the checklist Kellerman challenges leaders to do better This fascinating read will change the way that all of us think about leadership while compelling us to consider what it means for our future Finally a book that explains why leadership is so hard thought provoking examples taken from business and government alike Sydney Finkelstein Tuck School of Business author of *Why*

Reporting the Cuban Revolution reveals the untold story of thirteen American journalists in Cuba whose stories about Fidel Castro's revolution changed the way Americans viewed the conflict and altered U S foreign policy in Castro's favor Between 1956 and 1959 the thirteen correspondents worked underground in Cuba evading the repressive censorship of Fulgencio Batista's dictatorship in order to report on the rebellion led by Fidel Castro The journalists stories appeared in major newspapers magazines and national television and radio influencing Congress to abruptly cut off shipments of arms to Batista in 1958 Castro was so appreciative of the journalists efforts to publicize his rebellion that on his first visit to the United States as premier of Cuba he invited the reporters to a private reception at the Cuban Embassy in Washington where he presented them with engraved gold medals While the medals revealed Castro's perception of the correspondents as like minded partisans the journalists themselves had no such intentions Some had journeyed to Cuba in pursuit of scoops that could rejuvenate or jump start their careers others sought to promote press freedom in Latin America still others were simply carrying out assignments from their editors Bringing to light the disparate motives and experiences of the thirteen journalists who reported on this crucial period in Cuba's history Reporting the Cuban Revolution is both a masterwork of narrative nonfiction and a deft analysis of the tension between propaganda and objectivity in the work of American foreign correspondents *Activists in the Data Stream* Alice Mattoni,Diego Ceccobelli,2024-05-02 Available Open Access digitally under CC BY ND licence This book pulls back the curtain on the link between activism media and technology in the quiet times of politics when people are not protesting Introducing the novel concept of the data stream it explores the intricate ways in which activists interact daily with various types of data and how they navigate the impact of digitalization and datafication on today's grassroots politics Through rich empirical data from Greece Spain and Italy *Activists in the Data Stream* makes a nuanced contribution to our understanding of activists daily political engagement in an ever changing media and political landscape *Decisions and Orders of the National Labor Relations Board* United States. National Labor Relations Board,2014 *Capitalism in the Colonies* A. G. Hopkins,2024-07-16 An account that challenges the conventional views of African merchants under colonialism examining the emergence and changing fortunes of indigenous entrepreneurs in Lagos Nigeria In *Capitalism in the Colonies* A G Hopkins provides the first substantial assessment of the fortunes of African entrepreneurs under colonial rule Examining the lives and careers of 100 merchants in Lagos Nigeria between 1850 and 1931 Hopkins challenges conventional views of the contribution made by indigenous entrepreneurs to the long run economic development of Nigeria He argues that African merchants in Lagos not only survived but were also responsible for key innovations in trade construction farming and finance that are essential for understanding the development of Nigeria's economy The book is based on a large representative sample and covers a time span that traces mercantile fortunes over two

and three generations Drawing on a wide range of sources Hopkins shows that indigenous entrepreneurs were far more adventurous than expatriate firms African merchants in Lagos pioneered motor vehicles sewing machines publishing tanneries and new types of internal trade They founded the construction industry that built Lagos into a major port city moved inland to start the cocoa farming industry and developed the finance sector that is still vital to Nigeria s economy They also took the lead in changing single owned businesses into limited liability companies creating freehold property rights and promoting wage labour In short Hopkins argues they were the capitalists who introduced the institutions of capitalism into Nigeria The story of African merchants in Nigeria reminds us he writes that economic structures have no life of their own until they are animated by the actions of creative individuals **Public Policy** ,1901 **Congressional Record** United States.
