Division of Technical Information and Document Control, 2011 Chaucer, Gower, Hoccleve and the Commercial Practices of Late Fourteenth-Century London Craig E. Bertolet, 2016-04-15 As residents of fourteenth century London Geoffrey Chaucer John Gower and Thomas Hoccleve each day encountered aspects of commerce such as buying selling and worrying about being cheated Many of Chaucer s Canterbury Tales address how pervasive the market had become in personal relationships Gower s writings include praises of the concept of trade and worries that widespread fraud has harmed it Hoccleve s poetry examines the difficulty of living in London on a slender salary while at the same time being subject to all the temptations a rich market can provide Each writer finds that principal tensions in London focused on commerce how it worked who controlled it how it was organized and who was excluded from it Reading literary texts through the lens of archival documents and the sociological theories of Pierre Bourdieu this book demonstrates how the practices of buying and selling in medieval London shaped the writings of Chaucer Gower and Hoccleve Craig Bertolet constructs a framework that reads specific Canterbury tales and pilgrims associated with trade alongside Gower s *Mirour de L Omme* and *Confessio Amantis* and Hoccleve s *Male Regle* and *Regiment of Princes* Together these texts demonstrate how the inherent instability commerce produces also produces narratives about that commerce **Title List of Documents Made Publicly Available** , 1983 **From Sugar to Revolution** Myriam J.A. Visions of Haiti Cuba and the Dominican Republic Myriam Chancy aims to show that Haiti's exclusion is grounded in its historical role as a site of ontological defiance Her premise is that writers Edwidge Danticat Julia Alvarez Zo Vald's Loida Maritza Pérez Marilyn Bobes Achy Obejas Nancy Morejón and visual artist Maria Magdalena Campos Pons attempt to defy fears of otherness by assuming the role of archaeologists of amnesia They seek to elucidate women's variegated lives within the confining walls of their national identifications identifications wholly defined as male They reach beyond the confining limits of national borders to discuss gender race sexuality and class in ways that render possible the linking of all three nations Nations such as Haiti the Dominican Republic and Cuba are still locked in battles over self determination but as Chancy demonstrates women's gendered revisionings may open doors to less exclusionary imaginings of social and political realities for Caribbean people in general **Empire and Emancipation** S. Congressional Record United States. Congress, 1971 **The Alchemists** Tom Gerald Daly, 2017-11-02 Can courts really build democracy in a state emerging from authoritarian rule This book presents a searching critique of the contemporary global model of democracy building for post authoritarian states arguing that it places excessive reliance on courts Since 1945 both constitutional courts and international human rights courts have been increasingly perceived as alchemists capable of transmuting the base materials of a nascent democracy into the gold of a functioning democratic system By charting the development of this model and critically analysing the evidence and claims for courts as democracy builders this book argues that the decades long trend toward ever greater reliance on courts is based as much on faith as fact and can often be counter productive Offering a sustained corrective to unrealistic perceptions of courts as democracy builders the book points the way toward a much needed rethinking of democracy building models and a re evaluation of how we employ courts in this role
