Prepare for the Pediatric Emergency Medicine Board Examination Muhammad Waseem, Isabel A. Barata, Jennifer H. Chao, David Foster, Noah Kondamudi, 2020-05-22 This book outlines the essential knowledge required for the management of critically ill and severely injured children. It is designed to facilitate successful completion of the Pediatric Emergency Medicine Board Examination of the American Board of Pediatrics ABP. Each chapter follows a Question Answer format covering major areas in pediatrics such as cardiology, dermatology, nephrology, surgery, and trauma. The book concludes with a comprehensive practice test allowing it to function as a well-rounded reference and study guide. Prepare for the Pediatric Emergency Medicine Board Examination is an essential resource for any clinician or trainee seeking a concise review of how to manage critically ill and severely injured children.

Our Social World Jeanne H. Ballantine, Keith A. Roberts, Kathleen Odell Korgen, 2019-01-02 The authors are proud sponsors of the 2020 SAGE Keith Roberts Teaching Innovations Award, enabling graduate students and early career faculty to attend the annual ASA pre-conference teaching and learning workshop. *Our Social World: Introduction to Sociology* inspires students to develop their sociological imaginations to see the world and personal events from a new perspective and to confront sociological issues on a day-to-day basis. Organized around the Social World model, a conceptual framework that demonstrates the relationships among individuals, the micro level, organizations, institutions, and subcultures, the meso level, and societies and global structures, the macro level, the authors use this framework to help students develop the practice of using three levels of analysis and to view sociology as an integrated whole rather than a set of discrete subjects. The Seventh Edition includes new coverage of climate change, the influence of robots and artificial intelligence on workers, race relations in the Trump era, transgender identity and gender fluidity, sexual harassment in the workplace, and the MeToo movement, declining marriage rates, the impact of tracking for students at all academic achievement levels, smoking as an example of health and inequality in the U.S., gun violence, and the student movement to control access to guns, social media, and Russian interference in the 2016 election. Adverse and Toxic Effects of Childhood Cancer Treatments Rod Skinner, Antonio Ruggiero, Wael Zekri Khaled Zekri, 2022-01-04

The Baltimore Sabotage Cell Dwight R Messimer, 2015-03-15 By the summer of 1915 Germany was faced with two major problems in fighting World War I how to break the British blockade and how to stop or seriously disrupt the British supply line across the Atlantic The solution to the former was to find a way over through or under it Aircraft in those days were too primitive too short range and too underpowered to accomplish this and Germany lacked the naval strength to force a passage through the blockade But if Germany could build a fleet of cargo U boats that were large enough to carry meaningful loads and had the range to make a round trip between Germany and the United States without refueling the blockade might be successfully broken Since the German navy could not cut Britain's supply line to America another answer lay in sabotaging

munitions factories depots and ships as well as infecting horses and mules at the western end of the supply line German agents with American sympathizers successfully carried out more than fifty attacks involving fires and explosions and spread anthrax and glanders on the East Coast before America's entry into the war on 6 April 1917 Breaking the blockade with a fleet of cargo U boats provided the lowest risk of drawing America into the war at the same time sabotage was incompatible with Germany's diplomatic goal of keeping the United States out of the war The two solutions were very different but the fact that both campaigns were run by intelligence agencies the Etappendienst navy and the Geheimdienst army through the agency of one man Paul Hilken in one American city Baltimore make them inseparable Those solutions created the dichotomy that produced the U boat Deutschland and the Baltimore Sabotage Cell Here Messimer provides the first study of the degree to which U S citizens were enlisted in Germany's sabotage operations and debunks many myths that surround the Deutschland
