Business Week ,1970 *New York Magazine* ,1987-02-16 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine s consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea

Focus On: 100 Most Popular Television Shows Set in New York City Wikipedia contributors, *Coming After Oprah* Vicki Abt,Leonard Mustazza,1997 Examines the evolution and cultural significance of these programs disputing claims that they are nothing more than harmless entertainment The first half uncovers the mechanics of the talk show game The second reveals the web of commercial and political interests that influence the shows production as well as describing corporate players and their revenues The study concludes with suggestions for what we as a culture might do to protect ourselves from deception and misinformation Paper edition unseen 20 95 Annotation copyrighted by Book News Inc Portland OR

Commercial Culture Leo Bogart,2017-09-29 American mass media are the world s most diverse rich and free Their dazzling resources variety and influence arouse envy in other countries Their failures are commonly excused on the grounds that they are creatures of the market that they give people what they want Commercial Culture focuses not on the glories of the media but on what is wrong with them and why and how they may be made better This powerful critique of American mass communication highlights four trends that sound an urgent call for reform the blurring of distinctions among traditional media and between individual and mass communication the increasing concentration of media control in a disturbingly small number of powerful organizations the shift from advertisers to consumers as the source of media revenues and the growing confusion of information and entertainment of the real and the imaginary The future direction of the media Leo Bogart contends should not be left to market forces alone He shows how the public s appetite for media differs from other demands the market is left to satisfy because of how profoundly the media shape the public s character and values Bogart concludes that a world of new communications technology requires

a coherent national media policy respectful of the American tradition of free expression and subject to vigorous public scrutiny and debate

Commercial Culture is a comprehensive analysis of the media as they evolve in a technological age. It will appeal to general readers interested in mass communications as well as professionals and scholars studying American mass media.

Big Media, Big Money Ronald V. Bettig, Jeanne Lynn Hall, 2012-05-04 **Big Media Big Money** is a lively and scathing critique of the contemporary communications industry examining how media ownership and the profit making motive affect the messages we receive in alarming ways. Through close readings of recent news events and critical examination of corporate influence Bettig and Hall conclude that current interconnections among media big business government and education pose a serious threat to democratic communications. The second edition includes three new chapters covering the contemporary Hollywood film industry the changing landscape of the music industry and ad creep the proliferation of advertising into previously ad free venues such as schools and children's television programming.

Hollywood in the New Millennium Tino Balio, 2017-11-07 Hollywood is facing unprecedented challenges and is changing rapidly and radically as a result. In this major new study of the contemporary film industry leading film historian Tino Balio explores the impact of the Internet declining DVD sales and changing consumer spending habits on the way Hollywood conducts its business. Today the major studios play an insignificant role in the bottom lines of their conglomerate parents and have fled to safety relying on big budget tentpoles franchises and family films to reach their target audiences. Comprehensive compelling and filled with engaging case studies Time Warner DreamWorks SKG Spider Man The Lord of the Rings IMAX Netflix Miramax Sony Pictures Classics Lionsgate and Sundance **Hollywood in the New Millennium** is a must read for all students of film studies cinema studies media studies communication studies and radio and television.

Video and DVD Industries Paul McDonald, 2019-07-25 When the videocassette recorder was launched on the consumer market in the mid 1970s it transformed home entertainment. Bringing together complementary but also competing interests from the consumer electronics industry and the film television and other copyright industries video created a new sector of media business. Two decades later DVD reinvented video media for the digital age. DVD provided consumers with an innovative form of entertainment technology and almost instantaneously became the catalyst for a huge boom in the video market. Although the VCR and DVD created major markets for video hardware and software the video business has been continually shaped by industry conflicts and tensions. Repeatedly the video market has become divided when faced with the introduction of competing formats. Easy reproduction of films and other works on cassette or disc made video software a lucrative market for the copyright industries but also intensified struggles to combat the effects of commercial piracy. **Video and DVD Industries** examines the business of video entertainment and provides the first study looking at DVD from an industrial perspective. Detailing divisions in the video business the book outlines industry battles over incompatible formats from the Betamax VHS war to competing laserdisc systems alternatives such as video compact disc or Digital Video Express and the introduction of

HDDVD and Blu ray high definition systems Chapters also look at the formation of international markets in the globalization of video media the contradictory responses of the Hollywood studios to video and DVD and the legal and technological measures taken to control industrialized video piracy *Focus On: 100 Most Popular Television Series by Sony Pictures Television* Wikipedia contributors, Sound & Vision, 2006 *Billboard*, 2004-10-30 In its 114th year Billboard remains the world's premier weekly music publication and a diverse digital events brand content and data licensing platform Billboard publishes the most trusted charts and offers unrivaled reporting about the latest music video gaming media digital and mobile entertainment issues and trends *Popular Science*, 1979-02 Popular Science gives our readers the information and tools to improve their technology and their world The core belief that Popular Science and our readers share The future is going to be better and science and technology are the driving forces that will help make it better Rise of Innovative Business Models United States. Meta Television Erin Giannini, 2024-03-18 The idea of metatextuality is frequently framed as a recent television development and often paired with the idea that it represents genre exhaustion US television however with its early live performances and set bound sitcoms always suggested an element of self awareness that easily shaded into metatextuality even in its earliest days Meta Television thus traces the general history of US television's metatextuality throughout television's history arguing that TV's self awareness is nothing new and certainly not evidence of a period of aesthetic exhaustion but instead is woven into both its past and present practice elucidated through case studies featuring series from the 1970s to the present day many of which have not been critically analyzed before and the various ways they deploy metatext to both construct and deconstruct their narratives Further Meta Television asserts that this re and de construction of narrative and production isn't just a reward to the savvy and or knowledgeable viewer or consumer but seeks to make broader points about the media we consume and how

we consume it This book explores the ways in which the current metatextual turn in both the usual genres in which it appears horror and sci fi fantasy and its movement into drama and sitcom represents the next turn in television s inherent self awareness It traces this element throughout television s history growing from the more modest reflexivity of programs awareness of themselves as created objects in a particular medium to the more significant breaking of the fictive illusion and therefore the perceived distance between the audience and the series Erin Giannini shows how the increased currency of metatextual television in the contemporary era can be tied to a viewership well versed in its stories and production as well as able and willing to talk back via social media If television reflects culture to a certain extent this increased reflexivity mirrors that responsive audience as a consequence of the lack of distance that metafiction embraces As Robert Stam traced the use and implications of reflexivity in film and literature this book does the same for television further problematizing John Ellis s glance theory in terms of both production and spectatorship
