Asimov's collection of the same name. Binder's effect on science fiction was profound. Within the world of comic books, he created or co-created much of the Superman universe, including Smallville, Krypto, Superboy's dog, Supergirl, and the villain Brainiac. Binder is also credited with writing many of the first Bizarro storylines for DC Comics, as well as for being the main writer for the Captain Marvel comics. In later years, Binder expanded from comic books into pure science writing, publishing dozens of books and articles on the subject of satellites and space travel, as well as UFOs and extraterrestrial life. Comic book historian Bill Schelly tells the tale of Otto Binder through comic panels, personal letters, and interviews with Binder's own family and friends. Schelly weaves together Binder's professional successes and personal tragedies, including the death of Binder's only daughter and his wife's struggle with mental illness. A touching and human story, *Otto Binder: The Life and Work of a Comic Book and Science Fiction Visionary* is a biography that is both meticulously researched and beautifully told, keeping alive Binder's spirit of scientific curiosity and whimsy.

The CIA UFO Papers Dan Wright, Jan Harzan, 2019. A chronological collection of CIA documents spanning the years 1949 to 2000 relevant to UFO research.

[Close Encounters Of The Fourth Kind](#) C.D.B. Bryan, 2011-11-02. Close Encounters of the Fourth Kind cases in which personal contact between an individual or individuals is initiated by the occupants of the spacecraft. Such contact may involve the transportation of the individual from his or her terrestrial surroundings into the spacecraft, where the individual is communicated with and/or subjected to an examination before being returned. One might expect that a scientific conference devoted to people who have reported being kidnapped by little green men would be dismissed out of hand. But C.D.B. Bryan, the greatly admired journalist and author of *Friendly Fire*, did not dismiss it. The conference was to be held at the Massachusetts Institute of Technology and would have as its chairmen a Pulitzer Prize-winning Harvard psychiatry professor and a professor of physics from MIT. Bryan attended the conference throughout its five days. He approached the subject with no prior stand, no agenda, and an open if slightly skeptical mind. As the conference progressed, he was astonished by the quality of the stories told by the hundreds of men and women who came forward hesitantly and reluctantly with their utterly amazing and utterly convincing accounts of having been abducted and then examined aboard extraterrestrial spacecraft by spindly limbed, telepathic gray creatures with outsized foreheads dominated by huge, compelling, tear-shaped black eyes. What most astonished Bryan were the similarities found again and again in these accounts and the consistency of their details. It is here that the heart of the mystery lies, as the Harvard professor John E. Mack asked at the conference: If what the abductees are saying isn't happening to them, then what is? This question and the possible answers are at the center of this richly explicit, serious, and riveting book. Bryan recreates the conference. He interviews ufology's most prominent psychiatrists, psychologists, hypnotherapists, researchers, physicists, physicians, and folklorists. He interweaves throughout the testimony of the abductees themselves, who tell us their stories in chilling detail. He presents in depth the Close Encounter experiences of two women whose stories he tells on the basis of both their spontaneous recollections of the events and their memories that were retrieved through

sessions of hypnosis of which Bryan himself was a witness Finally Bryan examines the current theories psychological psychiatric medical parapsychological that have been put forward by the unconvinced to explain the abduction phenomenon Are the abductees suffering from some sort of false memory syndrome a multiple or dissociative personality disorder Are they fantasy prone Close Encounters of the Fourth Kind is a detailed objective exploration the most concrete to date of one of the enduring and amazing mysteries of our time It is a book that will equally fascinate believers and nonbelievers

Robertson,2016-02-25 How and why were UFOs so prevalent in both conspiracy theories and the New Age milieu in the post Cold War period In this ground breaking book David G Robertson argues that UFOs symbolized an uncertainty about the boundaries between scientific knowledge and other ways of validating knowledge and thus became part of a shared vocabulary Through historical and ethnographic case studies of three prominent figures novelist and abductee Whitley Strieber environmentalist and reptilian proponent David Icke and David Wilcock alleged reincarnation of Edgar Cayce the investigation reveals that millennial conspiracism offers an explanation as to why the prophesied New Age failed to arrive it was prevented from arriving by malevolent hidden others Yet millennial conspiracism constructs a counter elite a gnostic third party defined by their special knowledge An overview of the development of UFO subcultures from the perspective of religious studies UFOs Conspiracy Theories and the New Age is an innovative application of discourse analysis to the study of present day alternative religion

UFOs: The Twelve Files that the Pentagon Cannot Explain Egon Kragel, 2022-12-30

What is true and I'm actually being serious here is that there is footage and records of objects in the skies that we don't know exactly what they are. We can't explain how they move, their trajectory. And so I think that people still take seriously trying to investigate and figure out what that is. Barack Obama, May 17, 2021, the Late Late Show with James Corden. Since 2017, UFOs are no longer considered fiction. Declared a serious subject by the Pentagon, they have now entered public debate on American, German, and Japanese news channels. Passionate about ufology since his childhood, Egon Kragel is a great French specialist on the subject. He has dug up more than 150 UFO cases, some of which are fascinating and have captivated the international press, while others are more frightening and still raise questions. You'll read about The hairy cone of Vins-sur-Caramy, The wave of foo fighters from the Second World War, The Belgian wave, Kenneth Arnold, the father of saucers, The Flatwoods monster, Malmstrom deactivated missiles, The encounter of Herb Schirmer, The UFOs of the Hudson Valley, UFOs Abductions in the sky, Betty Cash and Vickie Landrum, A scathing remake of *Apocalypse Now*, Colares, Deadly encounters in the Amazon, UFOs and Pilots, A two-step in the sky. Egon Kragel is one of the great specialists in ufology in France. His work is recognized throughout the world, notably by his friend Jacques Vallée, who inspired the director Stephen Spielberg for the film *E.T.* He wrote his first book *Ovnis enquêtes sur un secret d'Etat*. He participates in numerous conferences, appears regularly on television, and takes part in radio programs and podcasts.
