through the first decade of the new millennium with the same thorough intense and lively scholarship that characterized Partridge's own work. Unique, exciting and at times hilariously shocking, key features include unprecedented coverage of World English with equal prominence given to American and British English slang and entries included from Australia, New Zealand, Canada, India, South Africa, Ireland and the Caribbean; emphasis on post World War II slang and unconventional English published sources given for each entry often including an early or significant example of the term's use in print; hundreds of thousands of citations from popular literature, newspapers, magazines, movies and songs illustrating usage of the headwords; dating information for each headword in the tradition of Partridge commentary on the term's origins and meaning. New to this edition: A new preface noting slang trends of the last five years; Over 1 000 new entries from the US, UK and Australia; New terms from the language of social networking; Many entries now revised to include new dating, new citations from written sources and new glosses. The New Partridge Dictionary of Slang and Unconventional English is a spectacular resource infused with humour and learning; it's rude, it's delightful and it's a prize for anyone with a love of language.

Not Gay Jane Ward, 2015-07-31 A different look at heterosexuality in the twenty-first century. A straight white girl can kiss a girl like it and still call herself straight; her boyfriend may even encourage her. But can straight white guys experience the same easy sexual fluidity or would kissing a guy just mean that they are really gay? *Not Gay* thrusts deep into a world where straight guy on guy action is not a myth but a reality: there's fraternity and military hazing rituals where new recruits are made to grab each other's penises and stick fingers up their fellow members' anuses; online personal ads where straight men seek other straight men to masturbate with; and last but not least the long and clandestine history of straight men frequenting public restrooms for sexual encounters with other men. For Jane Ward, these sexual practices reveal a unique social space where straight white men can and do have sex with other straight white men; in fact, she argues, to do so reaffirms rather than challenges their gender and racial identity. Ward illustrates that sex between straight white men allows them to leverage whiteness and masculinity to authenticate their heterosexuality in the context of sex with men. By understanding their same-sex sexual practice as meaningless, accidental or even necessary, straight white men can perform homosexual contact in heterosexual ways. These sex acts are not slippages into a queer way of being or expressions of a desired but unarticulated gay identity. Instead, Ward argues, they reveal the fluidity and complexity that characterizes all human sexual desire. In the end, Ward's analysis offers a new way to think about heterosexuality not as the opposite or absence of homosexuality but as its own unique mode of engaging in homosexual sex, a mode characterized by pretense, disidentification and racial and heterosexual privilege. Daring, insightful and brimming with wit, *Not Gay* is a fascinating new take on the complexities of heterosexuality in the modern era.

Italian Cinema and Modern European Literatures Carlo Testa, 2002-03-30 The history of cinema and notably that of post-war Italian cinema can only be understood adequately in the context of other contiguous cultural disciplines. World literature including that of France, Germany and Russia played a

key role in the development of post war Italian film and the cinematic technique it has come to embody Moving away from the usual modes of defining this period a trajectory that begins with neorealism and ends with Bertolucci author Carlo Testa offers proof that coming to terms with literary texts is an essential step toward understanding the motion pictures they influenced The means of recreating literature for the screen has changed drastically over the last half century as has the impact of different national traditions on Italian cinema Testa s work is the first to explicitly and deliberately link postwar Italian cinema to general intellectual concerns such as the relationship between literary authors and cinematic auteurs Moreover his analysis of the impact of French German and Russian cultures on Italy brings forth a new reading of Italian cinema a new paradigm for exploring complex issues of authorship culture and art
