Smart Board Write On:

A Primer of Mathematical Writing Steven G. Krantz, 2017-11-07 This is the second edition of a book originally published in 1997. Today the internet virtually consumes all of our lives especially the lives of writers. As both readers and writers we are all aware of blogs, chat rooms, and preprint servers. There are now electronic only journals and print on demand books. Open Access journals and joint research projects such as MathOverflow, not to mention a host of other new realities. It truly is a brave new world, one that can be overwhelming and confusing. The truly new feature of this second edition is an extensive discussion of technological developments. Similar to the first edition, Krantz's frank and straightforward approach makes this book particularly suitable as a textbook for an undergraduate course. *Get the Most from your SMARTboard* Danny Nicholson, 2015-05-29 Become a whizz with your whiteboard with these easy tutorials. Danny uses his many years' experience as a SMARTboard trainer to inspire teachers to use their boards in a more creative way. This book will give you many quick and easy practical ways to get the very best from your SMARTboard. Step by step tutorials walk you through the process of making fun and engaging resources. There are ideas for all age ranges and subject areas.
