Security and Privacy in Cyber-Physical Systems Houbing Song, Glenn A. Fink, Sabina Jeschke, 2017-09-11 Written by a team of experts at the forefront of the cyber physical systems CPS revolution this book provides an in depth look at security and privacy two of the most critical challenges facing both the CPS research and development community and ICT professionals. It explores in depth the key technical, social and legal issues at stake and it provides readers with the information they need to advance research and development in this exciting area. Cyber physical systems CPS are engineered systems that are built from and depend upon the seamless integration of computational algorithms and physical components. Advances in CPS will enable capability, adaptability, scalability, resiliency, safety, security and usability far in excess of what today's simple embedded systems can provide. Just as the Internet revolutionized the way

we interact with information CPS technology has already begun to transform the way people interact with engineered systems In the years ahead smart CPS will drive innovation and competition across industry sectors from agriculture energy and transportation to architecture healthcare and manufacturing A priceless source of practical information and inspiration Security and Privacy in Cyber Physical Systems Foundations Principles and Applications is certain to have a profound impact on ongoing R D and education at the confluence of security privacy and CPS
