

OVERVIEW

This EZNET series offers 16- and 24-port 10/100Mbps standalone, unmanaged switches. Designed specifically for home and small office applications, these switches feature auto-negotiation, auto-MDIX ports for easy network expansion and provide full bandwidth capability on each port. With fully auto-negotiating 10/100 ports, the speed and duplex modes of attached devices are instantly detected, allowing the switches to auto-configure for optimal performance.

These switches offer flexibility for any business while ensuring feature-rich and value-added support. Every port can automatically adjust and link to either a PC station or another switch, no need for crossover cables. Rackmountable or desktop, these switches are ideal for any office or addition to existing network workgroups.
