time was done with crewel needles or embroidery needles with silken threads or cotton threads depending on the fabric. You will need about 3 times the initial width of material because a major part of it is going to be gathered up into folds and stitched together. If you can gather the material you can smock it. Naturally this was the best way in which clothes could be gathered together in the absence of elastic. The fabrics on which the stitches work best are lightweight and ones that can gather easily. These include gingham, muslin, crepe de Chine, Cashmere, Swiss cotton, voile, Batiste, cottons, and handkerchief linens.
