,2004 *Landscapes of Fraud* Thomas E. Sheridan,2006-03-30 From the actions of Europeans in the seventeenth century to the real estate deals of the modern era people making a living off the land in southern Arizona have been repeatedly robbed of their way of life History has recorded more than three centuries of speculative failures that never amounted to much but left dispossessed people in their wake This book seeks to excavate those failures to examine the new social spaces the schemers struggled to create and the existing social spaces they destroyed *Landscapes of Fraud* explores how the penetration of the evolving capitalist world system created and destroyed communities in the Upper Santa Cruz Valley of Arizona from the late 1600s to the 1970s Thomas Sheridan has melded history anthropology and critical geography to create a penetrating view of greed and power and their lasting effect on those left powerless Sheridan first examines how O odham culture was fragmented by the arrival of the Spanish telling how autonomous communities moving across landscapes in seasonal rounds were reduced to a mission world of subordination Sheridan then considers the fate of the Tumac cori grant and Baca Float No 3 another land grant He tells the unbroken story of land fraud from Manuel Mar a G ndara s purchase of the abandoned Tumac cori grant at public auction in 1844 through the bankruptcy of the shady real estate developers who had fraudulently promoted housing projects at Rio Rico during the 1960s and 70s As the Upper Santa Cruz Valley underwent a wrenching transition from a landscape of community to a landscape of fraud the betrayal of the O odham became complete when land that most elemental form of human space was transformed from a communal resource into a commodity bought and sold for its future value Today Mission Tumac cori stands as a romantic icon of the past while the landscapes that supported it lay buried under speculative schemes that continue to haunt our history **Strategies for Adaptation to**
