The Story of Atlantis and the Lost Lemuria W. Scott-Elliot,2018-10-12 For readers unacquainted with the progress that has been made in recent years by earnest students of occultism attached to the Theosophical Society the significance of the statement embodied in the following pages would be misapprehended without some preliminary explanation Historical research has depended for western civilisation hitherto on written records of one kind or another When literary memoranda have fallen short stone

monuments have sometimes been available and fossil remains have given us a few unequivocal though inarticulate assurances concerning the antiquity of the human race but modern culture has lost sight of or has overlooked possibilities connected with the investigation of past events which are independent of fallible evidence transmitted to us by ancient writers The world at large is thus at present so imperfectly alive to the resources of human faculty that by most people as yet the very existence even as a potentiality of psychic powers which some of us all the while are consciously exercising every day is scornfully denied and derided The situation is sadly ludicrous from the point of view of those who appreciate the prospects of evolution because mankind is thus wilfully holding at arm s length the knowledge that is essential to its own ulterior progress The maximum cultivation of which the human intellect is susceptible while it denies itself all the resources of its higher spiritual consciousness can never be more than a preparatory process as compared with that which may set in when the faculties are sufficiently enlarged to enter into conscious relationship with the super physical planes or aspects of Nature
