Stopping the Spies Jane Duncan, 2018-06-01 Is South Africa on its way to becoming a surveillance state and will it need a whistleblower In 2013 former National Security Agency NSA contractor Edward Snowden leaked secret documents revealing that state agencies like the NSA had spied on the communications of millions of innocent citizens International outrage resulted but the Snowden documents revealed only the tip of the surveillance iceberg Apart from insisting on their rights to tap into communications more and more states are placing citizens under surveillance tracking their movements and transactions with public and private institutions The state is becoming like a one way mirror where it can see more of what its citizens do and say while citizens see less and less of what the state does owing to high levels of secrecy around surveillance In this book Jane Duncan assesses the relevance of Snowden s revelations for South Africa In doing so she questions the extent to which South Africa is becoming a surveillance society governed by a surveillance state Duncan challenges members of civil society to be concerned about and to act on the ever expanding surveillance capacities of the South African state Is surveillance used for the democratic purpose of making people safer or is it being used for the repressive purpose of social control especially of those considered to be politically threatening to ruling interests She explores the forms of collective action needed to ensure that unaccountable surveillance does not take place and examines what does and does not work when it comes to developing organised responses **South African Digest** ,1966 **Indian Engineering** ,1920 *War: How Conflict Shaped Us* Margaret MacMillan, 2021-10-05 Is peace an aberration The New York Times bestselling author of *Paris 1919* offers a provocative view of war as an essential component of humanity NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY THE NEW YORK TIMES BOOK REVIEW Margaret MacMillan has produced another seminal work She is right that we must more than ever think about war And she has shown us how in this brilliant elegantly written book H R McMaster author of *Dereliction of Duty* and *Battlefields The Fight to Defend the Free World* The instinct to fight may be innate in human nature but war organized violence comes with organized society War has shaped humanity s history its social and political institutions its values and ideas Our very language our public spaces our private memories and some of our greatest cultural treasures reflect the glory and the misery of war War is an uncomfortable and challenging subject not least because it brings out both the vilest and the noblest aspects of humanity Margaret MacMillan looks at the ways in which war has influenced human society and how in turn changes in political organization technology or ideologies have affected how and why we fight *War How Conflict Shaped Us* explores such much debated and controversial questions as When did war first start Does human nature doom us to fight one another Why has war been described as the most organized of all human activities Why are warriors almost always men Is war ever within our control Drawing on lessons from wars throughout the past from classical history to the present day MacMillan reveals the many faces of war the way it has determined our past our future our views of the world and our very conception of ourselves **Engineering**
