response members of STFRM staged a series of labor strikes in 1958 and 1959 that inspired a nationwide working class movement The Mexican army crushed the last strike on March 26 1959 and union members discovered that in the context of the Cold War exercising their constitutional right to organize and strike appeared radical even subversive Railroad Radicals in Cold War Mexico examines a pivotal moment in post World War II Mexican history The railroad movement reflected the contested process of postwar modernization which began with workers demanding higher wages at the end of World War II and culminated in the railway strikes of the 1950s a bold challenge to PRI rule In addition Robert F Alegre gives the wives of the railroad workers a narrative place in this history by incorporating issues of gender identity in his analysis

The Southern Exodus to Mexico Todd W. Wahlstrom, 2015-03

After the Civil War a handful of former Confederate leaders joined forces with the Mexican emperor Maximilian von Hapsburg to colonize Mexico with former American slaveholders Their plan was to develop commercial agriculture in the Mexican state of Coahuila under the guidance of former slaveholders with former slaves providing the bulk of the labor force By developing these new centers of agricultural production and commercial exchange the Mexican government hoped to open up new markets and by extending the few already existing railroads in the region also spur further development The Southern Exodus to Mexico considers the experiences of both white southern elites and common white and black southern farmers and laborers who moved to Mexico during this period Todd W Wahlstrom examines in particular how the endemic warfare raids and violence along the borderlands of Texas and Coahuila affected the colonization effort Ultimately Native groups such as the Comanches Kiowas Apaches and Kickapoos along with local Mexicans prevented southern colonies from taking hold in the region where local tradition and careful balances of power negotiated over centuries held more sway than large nationalistic or economic forces This study of the transcultural tensions and conflicts in this region provides new perspectives for the historical assessment of this period of Mexican and American history
