South African Defence Force Recruitment For 2016:

South Africa's Post-Apartheid Military Lindy Heinecken, 2020-01-01 This timely book examines how the South African National Defence Force has adapted to the country's new security political and social environment since 1994. In South Africa's changed political state, how has civilian control of the military been implemented and what does this mean for defence in a democracy? This book presents an overview of the security environment, how the mission focus of the military has changed and the implications for force procurement, force preparation, force employment and force sustainability. The author addresses other issues such as the effect of integrating former revolutionary soldiers into a professional armed force, the effect of affirmative action on meritocracy, recruitment and retention, military veterans looking at the difficulties they face in reintegrating back into society and finding gainful employment, gender equality and mainstreaming the rise of military unions and why a confrontational instead of a more corporatist approach to labour relations has emerged. HIV/AIDS and the consequences this holds for the military in terms of its operational effectiveness. In closing, the author highlights key events that have caused the SANDF to become lost in transition and transformation, spelling out some lessons learned. The conclusions she draws are pertinent for the future of defence security and civil-military relations of countries around the world.

Contemporary Issues in South African Military Psychology Nicole Dodd, Petrus C. Bester, Justin van der Merwe, 2020-05-13 Contemporary Issues in South African Military Psychology is a well-timed, extremely thought-provoking, imperative particular to the African context and deals with a highly contemporary issue within the people management and the management studies fields, specifically in the military field and context. This is specifically of importance as military psychology is a behavioural science that combines theory and practical application. Prof Karel Stanz, University of Pretoria.

SADC Gender Protocol 2017 Barometer Morna, Colleen Lowe, Makamure, Lucia, 2017-10-04 The SADC Protocol on Gender and Development is the only sub-regional instrument in the world that brings together global and continental commitments to gender equality in one instrument used to enhance accountability. The Southern African Gender Protocol Alliance is a network of country and regional NGOs that campaigned for the Protocol, its updating, implementation and tracking. Originally aligned to the Millennium Development Goals that expired in 2015, SADC Gender Ministers updated the Protocol and aligned it to the Sustainable Development Goals (SDGs), Beijing Plus Twenty and the Africa Agenda 2063 in 2016. In July 2017, the Ministers adopted a Monitoring, Evaluation and Reporting Framework (MERF) that will be the basis of future reporting. Now in its ninth edition, the 2017 Barometer is the first assessment of the Post 2015 SADC Gender Protocol. Moving with the times, the Alliance has expanded the two key main yardsticks in the Barometer: the SADC Gender and Development Index (SGDI) and the Citizen Score Card (CSC). The Barometer incorporates many MERF and SDG indicators as well as its own unique measures of voice, choice and control. The Barometer also introduces the Gender Responsive Assessment of Constitutions and Laws conducted by Alliance experts and networks around the region. A wealth of data, insights and analysis.

awaits all readers of the Barometer that will also be made available online and in multi media formats The SADC we want is one in which citizens engage step it up for gender equality and make sure we achieve Planet 50 50 by 2030 *The Eastern Fleet and the Indian Ocean, 1942-1944* Charles Stephenson, 2022-04-06 A study of the British Royal Navy's activities in the Indian Ocean during World War II led by Admiral Sir James Somerville The story of the British Eastern Fleet which operated in the Indian Ocean against Japan has rarely been told Although it was the largest fleet deployed by the Royal Navy prior to 1945 and played a vital part in the theatre it was sent to protect it has no place in the popular consciousness of the naval history of the Second World War So Charles Stephenson's deeply researched and absorbing narrative gives this forgotten fleet the recognition it deserves British pre war naval planning for the Far East is part of the story as is the disastrous loss of the battleship Prince of Wales and battlecruiser Repulse in 1941 but the body of the book focuses on the new fleet commanded by Admiral Sir James Somerville and its operations against the Japanese navy and aircraft as well as Japanese and German submarines Later in the war once the fleet had been reinforced with an American aircraft carrier it was strong enough to take more aggressive actions against the Japanese and these are described in vivid detail Charles Stephenson's authoritative study should appeal to readers who have a special interest in the war with Japan in naval history more generally and Royal Navy in particular Praise for *The Eastern Fleet and the Indian Ocean 1942-1944* This meticulously researched outstandingly clear well written and absorbing account is long overdue and will most likely become a standard work The text is most helpfully supported by over 80 pages of detailed end notes referenced to each chapter and a detailed index This is not only a book for naval historians but also for anyone with an interest in the War in the Indian Ocean region Highly recommended Military Historical Society I enjoyed this book it gives us an account of an often neglected part of the war at sea and of the achievements of Admiral Somerville who kept his fleet intact in the face of a potentially overwhelming opponent then was willing to acknowledge that his fleet needed to improve massively before it could take on the Japanese Dr John Rickard author and webmaster of the Military History Encyclopedia on the Web **Guns & Roses: Comparative**

Civil-Military Relations in the Changing Security Environment Steven Ratuva, Radomir Compel, Sergio Aguilar, 2019-01-04 This edited volume provides a critical and comparative discussion of the changing synergy between the military and society in the dramatically transforming global security climate drawing on examples from the Asian Pacific African Middle Eastern European and South American regions The book is interdisciplinary and covers wide ranging issues relating to civil military relations democratization regional security ethnicity peace building and peace keeping civilian oversight internal repression gender regime change and civil society **Propaganda and Public Relations in Military**

Recruitment Brendan Maartens, Thomas Bivins, 2020-11-19 This book represents the first international investigation of military recruitment advertising public relations and propaganda Comprised of eleven case studies that explore mobilisation work in Africa the Americas Asia and Europe it covers more than a hundred years of recent history with chapters on the First

and Second World Wars the Cold War and the present day The book explores such promotion in countries both large and small and in times of both war and peace with readers gaining an insight into the different strategies and tactics used to motivate men women and occasionally even children to serve and fight in many parts of the world Readers will also learn about the crucial but little known role of commercial advertising public relations and media professionals in the production and distribution of recruitment promotion This book the first of its kind to be published will explore that role and in the process address two questions that are central to studies of media and conflict how do militaries encourage civilians to join up and are they successful in doing so It is a multi disciplinary project intended for a diverse academic audience including postgraduate students exploring aspects of war propaganda and public opinion and researchers working across the domains of history communications studies conflict studies psychology and philosophy

Prisoners of War and Military Honour, 1789-1918 Jasper Heinzen, 2025-01-03 Early in the modern period prisoners of war with the rank of officer or equivalent had the right to petition for parole By effectively pawning their personal honour they were able to purchase freedom of movement and other privileges in captivity Increasingly other ranks and civilians claimed a right to parole too Based on material from close to thirty Australian British Dutch French German and Swiss archives Jasper Heinzen investigates the role and implications of honour based agreements between prisoners of war and their captors in western European warfare Across a range of ego documents ministerial memoranda the minutes of Masonic lodges and prisoners petitions as well as a substantial body of published material he demonstrates how captives statesmen and humanitarians understood honour in the long nineteenth century how they negotiated national differences and

why parole d'honneur continued to matter as a code of conduct into the First World War. In so doing, the book demonstrates the dichotomy between good codes of conduct prevalent in the eighteenth century and the practices of modern warfare perpetuated by a substantial amount of scholarship to be a false one. Explaining the longevity of parole in this novel way raises important questions about the so-called military Enlightenment, the excesses of the world wars, total war, and the practices and codes of modern warfare.

Women and the Military Ruth Margolies Beitler, Sarah M. Gerstein, 2021-04-07

This addition to the Women and Society around the World series explores the roles, challenges, and accomplishments of women in the military in countries across the globe. Around the world, millions of men serve in their countries' militaries, be it on land, on the seas, or in the air. But while many militaries have opened all positions to women, even those on the front lines, others remain closed. Countries have cited a number of reasons for their policies, including changing views of women and the military, conscription, and economic and demographic trends. Written by a professor of comparative politics at the United States Military Academy at West Point and an active-duty army major, this book seeks to provide an understanding of women's roles in militaries around the world. The book is organized by region, exploring societal and cultural views of masculinity and war, as well as factors influencing changing views of women and the military, including conscription and economic and demographic trends. Topics also include sexual harassment, recruitment, and views on women's physicality and strength. High school students, undergraduates, and general readers will find this cross-cultural study a fascinating and important resource.

West African Soldiers in Britain's Colonial Army (1860-1960) Timothy Stapleton, 2022

West African Soldiers in Britain's Colonial Army 1860-1960 explores the history of Britain's West African colonial army, based in Nigeria, Ghana, Sierra Leone, and the Gambia, placing it within a broader social context and emphasizing, as far as possible, the experience of the ordinary soldier. The aim is not to describe the many battles and campaigns fought by this force, but to look at the development of the West African colonial army as an institution over the course of about a century. In pursuing this goal, it is sometimes useful to employ the lens of military culture, defined differently by scholars, but essentially meaning a set of shared ideas and behaviors that inform daily life in the military. While other locally recruited colonial militaries in Africa have attracted considerable attention from historians as they served as an essential pillar supporting European rule, this book represents the first comprehensive scholarly study of Britain's West African army, which was the largest such British-led force south of the Sahara. The study is based on extensive archival research conducted in nine archives located in five countries.

Foreign Fighters and the Extreme Right Daniel Koehler, Miroslav Mareš, 2025-10-29

Foreign Fighters and the Extreme Right is the first comprehensive academic study taking an in-depth look at white supremacists, neo-Nazis, and other right-wing extremists leaving their home countries to join armed groups fighting in civil wars and other armed conflicts. The phenomenon known as Foreign Fighters has so far mainly been looked at in the context of jihadist groups like ISIS recruiting fighters from all over the world for the Syrian and Iraqi conflicts. Widely unnoticed, the war ongoing in Ukraine has also resulted in a stream of

foreign recruits but with a totally different ideology Right wing extremists from many countries have travelled to Ukraine in order to take part in the armed conflict against Russia Many have already returned to their countries of origin mostly unnoticed and unhindered by law enforcement agencies Looking more carefully one also can see a much longer history of right wing extremist foreign fighting in various conflicts for example the Yugoslavian war the Algerian conflict and in South America in the aftermath of the Vietnam war Bringing together world leading experts on right wing extremism and terrorism this collection of extreme right wing foreign fighting case studies since the end of the Second World War sheds light on a topic with significant importance which has yet remained mostly in the dark This book will be of interest to all those with an interest in small wars terrorism peace and conflict studies and right wing extremism *Women and War in the 21st Century*

Margaret D. Sankey, 2018-08-17 Twenty three countries currently allow women to serve in front line combat positions and others with a high likelihood of direct enemy contact This book examines how these decisions did or did not evolve in 47 countries This timely and fascinating book explores how different countries have determined to allow women in the military to take on combat roles whether out of a need for personnel a desire for the military to reflect the values of the society or the opinion that women improve military effectiveness or in contrast have disallowed such a move on behalf of the state In addition many countries have insurgent or dissident factions in that have led armed resistance to state authority in which women have been present requiring national militaries and peacekeepers to engage them incorporate them or disarm and deradicalize them This country by country analysis of the role of women in conflicts includes insightful essays on such countries as Afghanistan China Germany Iraq Israel Russia and the United States Each essay provides important background information to help readers to understand the cultural and political contexts in which women have been integrated into their countries militaries have engaged in combat during the course of conflict and have come to positions of political power that affect military decisions
