warranty the damage to the car's reputation was done. The NSU Ro80 is the most celebrated motoring lost cause of the second half of the twentieth century, outranking the likes of the Edsel and the DeLorean because, unlike those statements of misplaced optimism and ego, it was a good car. Not just good, the NSU Ro80 is one of the great saloons. Launched in September 1967, the Ro80 was an all-new four-door five-seater from a West German company that post-war had never made anything other than economy runabouts, motorcycles and mopeds. That alone should have been enough of a risk, but this was also the world's first purpose-built Wankel-engined family saloon. This compact, refined and elegantly simple power unit was the first really new concept in the realm of internal combustion engines to achieve mass production for ninety years. A car like the Ro80 could only really have come from Germany, where there was a passion for research and a pride in engineering not found elsewhere in Europe. With front-wheel drive, superb power steering and four-wheel disc brakes, the car had top handling and driver appeal. Quite simply, it was a masterpiece considered by many to be the finest vehicle of its type in the world. But with one fatal flaw, its engine. With over 300 archive photographs, drawings and diagrams, this book tells the story of the NSU.
