Contractors' National Association (U.S.), 1991 *Seismic Mitigation for Equipment at Army Medical Centers: Methods
Illustrated With Examples from Madigan Army Medical Center*, 1998 Medical centers may be the most critical facilities in the
response and recovery phase immediately after a damaging earthquake This report presents observations and makes
recommendations for the protection of equipment many of which support essential functions These observations are based on
a walk down inspection of Madigan Army Medical Center conducted in December 1996 Protecting critical equipment include
ensuring an adequate load path providing adequate anchorage and accommodating differential movement Observations and
recommendations are presented based on effective equipment protection seen at MAMC anchorage problems seen at MAMC
and load path concerns for well anchored equipment Lastly several references are listed with highlights on their significance
to medical facilities NEHRP Recommended Provisions for Seismic Regulations for New Buildings and Other Structures
, 2004 The 2003 edition of the NEHRP Recommended Provisions contains several significant changes including a reformatting
to improve its usability introduction of a simplified design procedure an updating of the seismic design maps and how they
are presented a modification in the redundancy factor the addition of ultimate strength design provisions for foundations the
addition of several new structural systems including buckling restrained braced frames and steel plate shear walls structures
with damping systems has been moved from an appendix to a new chapter and inclusion of new or updated material industry

The Seismic Design Handbook is a primary resource for both researchers and teachers in the field of earthquake resistant
design The first edition of this handbook was received with much enthusiasm It is the de facto textbook for teaching seismic
design principles at many major universities In the United States UC Berkeley Stanford UCLA University of Southern
California SUNY Buffalo the University of Illinois Washington University the University of Texas at Austin Georgia Tech
Cornell and the University of Michigan have adopted the text Abroad the Imperial College of London and the Israel Institute
of Technology are among its adopters This second edition contains up to date information on planning analysis and design of
earthquake resistant building structures Its intention is to provide engineers architects developers and students of structural

engineering and architecture with authoritative yet practical design information It bridges the gap between advances in the theories and concepts of seismic design and their implementation in practice This handbook has been endorsed by the International Conference of Building Officials Audience The Seismic Design Handbook is a must for practicing engineers architects building officials developers teachers and students in the field of earthquake resistant building design Its distinguished panel of contributors is made up of 22 experts from industry and universities recognized for their knowledge and extensive practical experience in their fields Department Of Defense Index of Specifications and Standards Alphabetical Listing Part I July 2005 , **NEHRP Commentary on the Guidelines for the Seismic Rehabilitation of Buildings** Eugene Zeller,2000-06 This document from the National Earthquake Hazards Reduction Program NEHRP was prepared for the Building Seismic Safety Council BSSC with funding from the Federal Emergency Management Agency FEMA It provides commentary on the NEHRP Guidelines for the Seismic Rehabilitation of Buildings It contains systematic guidance enabling design professionals to formulate effective reliable rehabilitation approaches that will limit the expected earthquake damage to a specified range for a specified level of ground shaking This kind of guidance applicable to all types of existing buildings in all parts of the country has never existed before Illustrated NEHRP Guidelines for the Seismic Rehabilitation of Buildings ,1997 **Piping and Pipeline Engineering** George A.
