Gr. 10 Mathematical Literacy

Term 2 - 2024

Paper 2

Total: 50 marks

Time: 1 hour

Learner's name: _____ Gr. 10: _____

Instructions and information:

- This question paper consists of two questions, answer both questions.
- The use of a calculator is not allowed.
- No Tip - Ex may be used.
- Show all the steps that were required in order to get to the answer.
- Good luck!

QUESTION	TOPIC	TOTAL
1	Finances	20
2	Distance / Temperature and volume	15
3	Map work	15
TOTAL		50

QUESTION 1

Sara is an aspiring chef who dreams of opening her own bakery. She recently graduated from culinary school and has saved up some money to start her business. Sara has found the perfect spot for her bakery but needs to calculate the costs involved in setting it up.

- 1.1 The rent for the bakery space is R 8 500 per month. If Sara plans to rent the space for one year and 6 months, how much will she spend on rent in total? (2)
- 1.2 Sara needs to purchase baking equipment, including an oven, mixer, and refrigerator, which costs a total of R 9 800. If she plans to pay 30% of the total cost upfront as a deposit and finance the remaining amount with a loan.
 - 1.2.1) How much money does she need to pay initially with the 30%? (7)
 - 1.2.2) Calculate the total cost of the baking equipment if the amount after the deposit needs to be paid back over two years at 1% simple interest. (3)
- 1.3 Sara plans to hire two assistant bakers to help with baking and customer service. If each assistant earns R 75 per hour and works 40 hours per week, how much will Sara spend on labor costs per month? (3)
- 1.4 To attract customers, Sara plans to offer a variety of baked goods, including cakes, pastries, and bread. If she estimates that the cost of ingredients for each item is as follows: R25 for a cake, R18 for pastries, and R22 for bread, and she wants to maintain a 30% profit margin on each item, what should Sara price each item to ensure a profit? (5)

Redraw the following table to answer question 1.4

Item	Original price	New Price
Cake	R 25	
Pastries	R 18	
Bread	R 22	

Smart Learner Maths June Question Paper

**Stamatios Papadakis, Michail
Kalogiannakis, Ali Ibrahim Can Gözüm**

Smart Learner Maths June Question Paper:

Cases on Smart Learning Environments Darshan Singh, Abtar, Raghunathan, Shriram, Robeck, Edward, Sharma, Bibhya, 2018-12-28 At a time when ICTs are proliferating various facets of society and human interactivity optimizing the use of these tools and technologies not only enhances learning but also transforms learning experiences all together resulting in an increase of effectiveness and quality of education around the globe As such teachers are being challenged to implement a wide range of tools such as mobile learning and augmented reality to create smarter learning environments inside and outside of the classroom Cases on Smart Learning Environments explores the potential of SLE tools for enhanced learning outcomes as experienced by educators learners and administrators from various learning institutions around the world This publication presents cases on the real world implementation of SLEs in 11 countries that span the continents of Asia Africa Europe and North and South America Featuring coverage on a broad range of topics such as learner engagement teacher training and intelligent agent technology this book is ideally designed for academicians instructors instructional designers librarians educational stakeholders and curriculum developers Citizen, Territory and Technologies: Smart Learning Contexts and Practices Óscar Mealha, Monica Divitini, Matthias Rehm, 2017-06-21 This book gathers a selection of the articles accepted for presentation and discussion at the 2nd International Conference on Smart Learning Ecosystems and Regional Developments SLERD 2017 held 22 23 June What characterizes smart learning ecosystems What is their role in city and regional development and innovation How can we promote the engagement of citizens in smart learning ecosystems These are some of the questions addressed at SLERD 2017 and documented here The proceedings include scientific papers that endeavor to understand devise and promote innovative human centric design and development methods education training practices informal social learning and citizen driven policies The individual papers elaborate on the notion of smart learning ecosystems study the relation of smart learning ecosystems with As such they help to foster the social innovation sectors Information and Communication Technology ICT and economic development and deployment strategies alongside new policies for smarter proactive citizens making them a valuable resource for researchers and policymakers alike

Innovations in Smart Learning Elvira Popescu, Kinshuk, Mohamed Koutheair Khribi, Ronghuai Huang, Mohamed Jemni, Nian-Shing Chen, Demetrios G. Sampson, 2016-09-16 The book aims to provide an archival forum for researchers academics practitioners and industry professionals interested and or engaged in the reform of the ways of teaching and learning through advancing current learning environments towards smart learning environments It facilitates opportunities for discussions and constructive dialogue among various stakeholders on the limitations of existing learning environments need for reform innovative uses of emerging pedagogical approaches and technologies and sharing and promotion of best practices leading to the evolution design and implementation of smart learning environments The focus of the contributions in this book is on the interplay of pedagogy technology and their fusion towards the advancement of smart learning

environments Various components of this interplay include but are not limited to Pedagogy learning paradigms assessment paradigms social factors policy Technology emerging technologies innovative uses of mature technologies adoption usability standards and emerging new technological paradigms open educational resources cloud computing etc Fusion of pedagogy and technology transformation of curriculum transformation of teaching behavior transformation of administration best practices of infusion piloting of new ideas

Emerging Challenges in Intelligent Management Information Systems

Marcin Hernes, Jarosław Wątróbski, 2024-08-06 This book contains the proceedings of the ECAI 2023 Workshop on Intelligent Management Information Systems IMIS 2023 IMIS 2023 was part of the 26th European Conference on Artificial Intelligence ECAI 2023 held in Krakow from September 30 2023 to October 4 2023 The book discusses emerging challenges related to implementing artificial intelligence in Management Information Systems The main focus is put on machine learning including deep learning to support business processes artificial intelligence for financial systems and cryptocurrencies intelligent human computer interfaces knowledge management in business organizations hybrid artificial intelligence and multiple criteria decision analysis methods The book is divided into four major parts covering the main issues related to the topic The first part presents issues related to application of artificial intelligence in information systems The second part is devoted to advanced machine learning methods to support business processes The third part presents problems related to the social aspects of artificial intelligence in management The fourth part is devoted to intelligent multiple criteria decision analysis methods The book holds an interdisciplinary character therefore it is intended for a broad scope of readers including researchers students managers and employees of business organizations software developers IT and management specialists

The Fourth Industrial Revolution: Implementation of Artificial Intelligence for Growing Business Success

Allam Hamdan, Aboul Ella Hassanien, Anjum Razzaque, Bahaaeddin Alareeni, 2021-02-12 This book focuses on the implementation of AI for growing business and the book includes research articles and expository papers on the applications of AI on decision making health care smart universities public sector and digital government FinTech and RegTech Artificial Intelligence AI is a vital and a fundamental driver for the Fourth Industrial Revolution FIR Its influence is observed at homes in the businesses and in the public spaces The embodied best of AI reflects robots which drive our cars stock our warehouses monitor our behaviors and warn us of our health and care for our young children Some researchers also discussed the role of AI in the current COVID 19 pandemic whether in the health sector education and others On all of these the researchers discussed the impact of AI on decision making in those vital sectors of the economy

Climate Smart & Energy Wise

Mark S. McCaffrey, 2014-09-09 Today's answers to our most urgent climate issues The twenty first century ushered in a set of unmistakably urgent global challenges that are too important to be an afterthought in today's classrooms Climate Smart Energy Wise offers a virtual blueprint to climate and energy education packed with resources and strategies including A high level overview of where climate and energy topics fit or don't fit into your current curriculum with connections to the NGSS

Proven methods to teach climate change and related topics in a grade appropriate way Sample learning activities and high quality online resources

Intelligent Tutoring Systems Gilles Gauthier, Claude Frasson, Kurt VanLehn, 2000-06-05 ITS 2000 is the fifth international conference on Intelligent Tutoring Systems The preceding conferences were organized in Montreal in 1988 1992 and 1996 These conferences were so strongly supported by the international community that it was decided to hold them every two years ITS 98 was organized by Carol Redfield and Valerie Shute and held in San Antonio Texas The program committee included members from 13 countries They received 140 papers 110 full papers and 30 young researchers papers from 21 countries As with any international conference whose proceedings serve as a reference for the field the program committee faced the demanding task of selecting papers from a particularly high quality set of submissions This proceedings volume contains 61 papers selected by the program committee from the 110 papers submitted They were presented at the conference along with six invited lectures from well known speakers The papers cover a wide range of subjects including architectures for ITS teaching and learning strategies authoring systems learning environments instructional designs cognitive approaches student modeling distributed learning environments evaluation of instructional systems cooperative systems Web based training systems intelligent agents agent based tutoring systems intelligent multimedia and hypermedia systems interface design and intelligent distance learning

Advances in Explainable AI Applications for Smart Cities Ghonge, Mangesh M., Pradeep, Nijalingappa, Jhanjhi, Noor Zaman, Kulkarni, Praveen M., 2024-01-18 As smart cities become more prevalent the need for explainable AI XAI applications has become increasingly important Advances in Explainable AI Applications for Smart Cities is a co edited book that showcases the latest research and development in XAI for smart city applications This book covers a wide range of topics including medical diagnosis finance and banking judicial systems military training manufacturing industries autonomous vehicles insurance claim management and cybersecurity solutions Through its diverse case studies and research this book provides valuable insights into the importance of XAI in smart city applications This book is an essential resource for undergraduate and postgraduate students researchers academicians industry professionals and scientists working in research laboratories It provides a comprehensive overview of XAI concepts advantages over AI and its applications in smart city development By showcasing the impact of XAI on various smart city applications the book enables readers to understand the importance of XAI in creating more sustainable and efficient smart cities Additionally the book addresses the open challenges and research issues related to XAI in modern smart cities providing a roadmap for future research in this field Overall this book is a valuable resource for anyone interested in understanding the importance of XAI in smart city applications

Applications of AI in Smart Technologies and Manufacturing S.P. Jani, M. Adam Khan, 2025-10-14 Applications of AI in Smart Technologies and Manufacturing presents a rich repository of groundbreaking research in emerging engineering domains With contributions from eminent educators industrialists scientists and researchers this book highlights the transformative role of AI and smart

technologies in enhancing community welfare and shaping the future of manufacturing and engineering practices This title comprises a selection of papers that reflect a global exchange of ideas in digital manufacturing advanced machining processes bioengineering tribology smart materials IoT applications energy storage smart cities robotics and AI applications in healthcare With special emphasis on optimization algorithms virtual and augmented reality in automation and smart energy technologies this volume delves into ways in which rapid technological advancements are breaking traditional barriers in education research and industrial applications This is a resourceful guide for researchers academicians engineers industrial practitioners and graduate students in the domains of mechanical engineering smart technologies artificial intelligence and automation It is also highly relevant to decision makers and R D professionals focused on applying AI and smart solutions to achieve sustainable innovation in engineering and technology **Technology in Education.**

Innovations for Online Teaching and Learning Lap-Kei Lee, Leong Hou U, Fu Lee Wang, Simon K. S. Cheung, Oliver Au, Kam Cheong Li, 2020-12-16 This book constitutes extended papers from the 5th International Conference on Technology in Education ICTE 2020 held in August 2020 Due to the COVID 19 pandemic the conference was held online The 30 papers presented in this volume were carefully reviewed and selected from 79 submissions They are organized in topical sections on instructional technology learning analysis and assessment learning environment open and collaborative learning technology and education *Advanced Methodologies and Technologies in Modern Education Delivery* Khosrow-Pour, D.B.A., Mehdi, 2018-09-21 Recent innovations and new technologies in education have altered the way teachers approach instruction and learning and can provide countless advantages The pedagogical value of specific technology tools and the cumulative effects of technology exposure on student learning over time are two areas that need to be explored to better determine the improvements needed in the modern classroom *Advanced Methodologies and Technologies in Modern Education Delivery* provides emerging research on educational models in the continually improving classroom While highlighting the challenges facing modern in service and pre service teachers when educating students readers will learn information on new methods in curriculum development instructional design and learning assessments to implement within their classrooms This book is a vital resource for pre service and in service teachers teacher education professionals higher education administrative professionals and researchers interested in new curriculum development *Second Handbook of Research on Mathematics Teaching and Learning* Frank K. Lester, 2007-02-01 The audience remains much the same as for the 1992 Handbook namely mathematics education researchers and other scholars conducting work in mathematics education This group includes college and university faculty graduate students investigators in research and development centers and staff members at federal state and local agencies that conduct and use research within the discipline of mathematics The intent of the authors of this volume is to provide useful perspectives as well as pertinent information for conducting investigations that are informed by previous work The Handbook should also be a useful textbook for graduate research seminars In addition to the

audience mentioned above the present Handbook contains chapters that should be relevant to four other groups teacher educators curriculum developers state and national policy makers and test developers and others involved with assessment Taken as a whole the chapters reflects the mathematics education research community s willingness to accept the challenge of helping the public understand what mathematics education research is all about and what the relevance of their research fi ndings might be for those outside their immediate community

Resources in Education ,2001

Advancing DEI and Creating Inclusive Environments in the Online Space McCune, Nina M.,2022-06-24 Diversity and inclusion are vital practices in today s educational environments both online and in person Implementing inclusive practices to support student development is critical to ensure they receive the best possible education and feel comfortable in the classroom With the current shift to online teaching and learning it is especially important to consider how diversity and equity are promoted in these new technological spaces Advancing DEI and Creating Inclusive Environments in the Online Space considers the process of creating a caring and inclusive teaching and learning environment in online postsecondary institutions by addressing key issues such as creating sites of collaboration and engagement ensuring and proactively delivering resources and student support and developing hallmarks of inclusivity to support online course design and faculty development Covering a range of topics such as strategic planning social change and assessment this reference work is ideal for administrators higher education faculty researchers scholars practitioners academicians instructors and students

Stem, steam, computational thinking and coding: Evidence-based research and practice in children’s development Stamatios Papadakis,Michail Kalogiannakis,Ali Ibrahim Can Gözüml,2023-03-13

Smart Intelligent Computing and Applications Suresh Chandra Satapathy,Vikrant Bhateja,Swagatam Das,2018-10-01 The proceedings covers advanced and multi disciplinary research on design of smart computing and informatics The theme of the book broadly focuses on various innovation paradigms in system knowledge intelligence and sustainability that may be applied to provide realistic solution to varied problems in society environment and industries The volume publishes quality work pertaining to the scope of the conference which is extended towards deployment of emerging computational and knowledge transfer approaches optimizing solutions in varied disciplines of science technology and healthcare

Handbook of Artificial Intelligence and Wearables Hemachandran K,Manjeet Rege,Zita Zoltay Paprika,K. V. Rajesh Kumar,Shahid Mohammad Ganie,2024-04-04 The ever changing world of wearable technologies makes it difficult for experts and practitioners to keep up with the most recent developments This handbook provides a solid understanding of the significant role that AI plays in the design and development of wearable technologies along with applications and case studies Handbook of Artificial Intelligence and Wearables Applications and Case Studies presents a deep understanding of AI and its involvement in wearable technologies The book discusses the key role that AI plays and goes on to discuss the challenges and possible solutions It highlights the more recent advances along with real world approaches for the design and development of the most popular AI enabled

wearable devices such as smart fitness trackers AI enabled glasses sports wearables disease diagnostic devices and more complete with case studies This book will be a valuable source for researchers academics technologists industrialists practitioners and all people who wish to explore the applications of AI and the part it plays in wearable technologies

Teaching Mathematics Creatively Linda Pound, Trisha Lee, 2021-09-30 This revised and updated third edition offers a range of strategies activities and ideas to bring mathematics to life in the primary classroom Taking an innovative and playful approach to maths teaching this book promotes creativity as a key element of practice and offers ideas to help your students develop knowledge understanding and enjoyment of the subject In the creative classroom mathematics becomes a tool to build confidence develop problem solving skills and motivate children The fresh approaches explored in this book include a range of activities such as storytelling music and construction elevating maths learning beyond subject knowledge itself to enable students to see mathematics in a new way Key chapters of this book explore Learning maths outdoors make more noise make more mess or work on a larger scale Everyday maths making sense of the numbers patterns shapes and measures children see around them Music and maths the role of rhythm in learning and music and pattern in maths Stimulating accessible and underpinned by the latest research and theory this is essential reading for trainee and practising teachers who wish to embed creative approaches to maths teaching in their classroom Handbook of Smart Manufacturing

Ajay, Hari Singh, Parveen, Bandar AlMangour, 2023-07-17 This handbook covers smart manufacturing development processing modifications and applications It provides a complete understanding of the recent advancements in smart manufacturing through its various enabling manufacturing technologies and how industries and organizations can find the needed information on how to implement smart manufacturing towards sustainability of manufacturing practices Handbook of Smart Manufacturing Forecasting the Future of Industry 4.0 covers all related advances in manufacturing such as the integration of reverse engineering with smart manufacturing industrial internet of things IIoT and artificial intelligence approaches including Artificial Neural Network Markov Decision Process and Heuristics Methodology It offers smart manufacturing methods like 4D printing micro manufacturing and processing of smart materials to assist the biomedical industries in the fabrication of human prostheses and implants The handbook goes on to discuss how to accurately predict the requirements identify errors and make innovation for the manufacturing process more manageable by implementing various advanced technologies and solutions into the traditional manufacturing process Strategies and algorithms used to incorporate smart manufacturing into different sectors are also highlighted within the handbook This handbook is an invaluable resource for stakeholders industries professionals technocrats academics research scholars senior graduate students and human healthcare professionals **Department of Education Fiscal Year 2011 Budget** United States. Congress. House. Committee on the Budget, 2010

When somebody should go to the books stores, search creation by shop, shelf by shelf, it is in fact problematic. This is why we present the books compilations in this website. It will unconditionally ease you to see guide **Smart Learner Maths June Question Paper** as you such as.

By searching the title, publisher, or authors of guide you really want, you can discover them rapidly. In the house, workplace, or perhaps in your method can be all best area within net connections. If you seek to download and install the Smart Learner Maths June Question Paper, it is enormously simple then, before currently we extend the partner to purchase and make bargains to download and install Smart Learner Maths June Question Paper in view of that simple!
