**Criminal Law** Josie Kemeys,2019      **Mental State Defences in Criminal Law** Steven Yannoulidis,2016-04-22 By defining appropriate boundaries for the defence of insanity and the doctrine of automatism this book presents a consistent and principled approach to the reform of mental state defences In particular by undertaking an interdisciplinary analysis of the various factors that inform these defences the book concludes with several practical and robust reform proposals There are three objectives that underpin the suggested reform proposals First to ensure that an accused will be able to raise a defence of insanity for involuntary conduct arising from mental disorder even where he or she is aware of the nature and quality of such conduct Second to provide principled means by which to establish the criminal responsibility of an accused for conduct performed in a state of drug induced psychosis Third to ensure that criminal conduct arising from a state of impaired consciousness does not automatically result in the outright acquittal of an accused In articulating the competing demands that must be balanced in order to secure a principled approach to the reform of mental state defences the book will be of relevance to all common law countries      **Smith, Hogan, and Ormerod's Criminal Law** David Ormerod,Karl Laird,2018

The Indian Yearbook of Comparative Law 2018 Mahendra Pal Singh, Niraj Kumar, 2019-07-10 This yearbook is a compilation of thematically arranged essays that critically analyse emerging developments, issues and perspectives across different branches of law. It consists of research from scholars around the world with the view that comparative study would initiate dialogue on law and legal cultures across jurisdictions. The themes vary from jurisprudence of comparative law and its methodologies to intrinsic details of specific laws like memory laws. The sites of the enquiries in different chapters are different legal systems, recent judgements and aspects of human rights in a comparative perspective. It comprises seven parts wherein the first part focuses on general themes of comparative law, the second part discusses private law through a comparative lens and the third, fourth and fifth parts examine aspects of public law with special focus on constitutional law, human rights and economic laws. The sixth part engages with criminal law and the last part of the book covers recent developments in the field of comparative law. This book intends to trigger a discussion on issues of comparative law from the vantage point of Global South, not only focusing on the Global North. It examines legal systems of countries from far east and sub continent and presents insights on their working. It encourages readers to gain a nuanced understanding of the working of law, legal systems and legal cultures adding to existing deliberations on the constituents of an ideal system of law.
