related We suggest that you go through ALL TOPICS AND MODULES before taking any of the individual exam parts Do NOT study on a per module basis Instead treat all of them as a whole this will guarantee that you don't get tripped up when closely related questions show up on different exam parts This is why we do not break down the practice questions into modules we force you to assess your readiness to everything covered in the entire certification track We create these self practice test questions referencing the concepts and principles currently valid in all these exams Each question comes with an answer and a short explanation which aids you in seeking further study information For purpose of exam readiness drilling this product includes questions that have varying numbers of choices Some have 2 while some have 5 or 6 We want to make sure these questions are tough enough to really test your readiness and draw your focus to the weak areas Think of these as challenges presented to you so to assess your comprehension of the subject matters The goal is to reinforce learning to validate successful transference of knowledge and to identify areas of weakness that require remediation The questions are NOT designed to simulate actual exam questions realistic or actual questions that are for cheating purpose are not available in any of our products
