Advanced Reporting Miles Maguire,2014-07-25

News gathering is a large complicated and often messy task that has traditionally been viewed by journalists as irretrievably idiosyncratic best learned through trial and error Advanced Reporting takes the opposite approach focusing on reporting as a process of triangulation based on three essential activities analyzing documents making observations and conducting interviews In this readable book veteran journalism professor Miles Maguire shows how the best reporters use these three tools in a way that allows them to cross check and authenticate facts to reduce or eliminate unsupportable allegations and to take readers and viewers to a deeper level of insight and understanding This book will help to prepare students for a profession marked by increasing complexity and competition To succeed in this environment journalists must learn to make the most of digital media to intensify the impact of their work At the same time reporters must contend with a host of sophisticated public relations techniques while engaging with news audiences that no longer just consume journalism but also collaborate in its creation Discussion questions and exercises help students put theory into practice

Congress, 2012 **The Stalingrad Cauldron** Frank Ellis, 2013-06-27 The encirclement of the German 6th Army at Stalingrad in mid November 1942 and its final collapse in February 1943 was a signature defeat for Hitler as more than 100 000 of his soldiers were marched off into captivity Frank Ellis tackles this oft told tale from the unique perspective of the German officers and men trapped inside the Red Army's ever closing ring of forces This approach makes palpable the growing desperation of an army that began its campaign confident of

victory but that long before the end could see how hopeless their situation had become Highlighting these pages are three previously unpublished German army division accounts translated here for the first time by Ellis Each of these translations follows the combat experiences of a specific division the 76th Infantry the 94th Infantry and the 16th Panzer and take readers into the cauldron or Kessel that was Stalingrad Together they provide a ground level view of the horrific fighting and yield insights into everything from tactics and weapons to internal disputes the debilitating effects of extreme cold and hunger and the Germans astonishing sense of duty and the abilities of their junior leaders Along with these first hand accounts Ellis himself takes a new and closer look at a number of fascinating but somewhat neglected or misunderstood aspects of the Stalingrad cauldron including sniping desertion spying and the fate of German prisoners His coverage of sniping is especially notable for new insights concerning the duel that allegedly took place between Soviet sniper Vasili Zaitsev and a German sniper Major Konings a story told in the film *Enemy at the Gates* 2001 Ellis also includes an incisive reading of Oberst Arthur Boje s published account of his capture interrogation and conviction for war crimes and explores the theme of reconciliation in the works of two Stalingrad veterans Kurt Reuber and Vasili Grossman Rich in anecdotal detail and revealing moments Ellis s historical mosaic showcases an army that managed to display a vital resilience and professionalism in the face of inevitable defeat brought on by its leaders It makes for compelling reading for anyone interested in one of the Eastern Front s monumental battles
