Caribeños at the Table Melissa Fuster,2021-09-15 Melissa Fuster thinks expansively about the multiple meanings of comida food from something as simple as a meal to something as complex as one s identity She listens intently to the voices of New York City residents with Cuban Dominican or Puerto Rican backgrounds as well as to those of the nutritionists and health professionals who serve them She argues with sensitivity that the migrants health depends not only on food culture but also on important structural factors that underlie their access to food employment and high quality healthcare People in Hispanic Caribbean communities in the United States present high rates of obesity diabetes and other diet related diseases conditions painfully highlighted during the COVID 19 pandemic Both eaters and dietitians may blame these diseases on the

shedding of traditional diets in favor of highly processed foods Or conversely they may blame these on the traditional diets of fatty meat starchy root vegetables and rice Applying a much needed intersectional approach Fuster shows that nutritionists and eaters often misrepresent and even racialize or pathologize a cuisine s healthfulness or unhealthfulness if they overlook the kinds of economic and racial inequities that exist within the global migration experience **The Easy Puerto Rican**
