Titanic Rupert Matthews, 2022-10-01 The sinking of the Titanic on its maiden voyage in 1912 is one of the most dramatic stories in maritime history The largest passenger steamship in the world fitted with more advanced safety features than any of her rivals she was proclaimed to be virtually unsinkable Just how and why the Titanic foundered on such a beautiful April evening is the subject of this fascinating book Author Rupert Matthews has written a highly readable account of the story of the Titanic from the building of the liner to the excitement surrounding her launch the slow unfolding of an unimaginable tragedy the investigations and finally the discovery of the wreck He also explores the evidence behind the stories of heroism and cowardice related by survivors and investigates the many theories surrounding the great ship's tragic loss Includes Photographs of the Titanic her crew and passengers Eye witness accounts Personal memories **The Rescue of the Third Class on the Titanic** David Gleicher, 2017-10-18 This work seeks to understand why a disproportionately large number of third class passengers particularly women and children died during the sinking of the Titanic in relation to the first and second classes It examines the gender class social and cultural factors that influenced this disparity It aims to uncover both why and how five hundred and thirty one third class passengers died on the night of April 14th 1912 A key area of focus is the difficult relationship between the ship's authorities and the men of the third class and the extent to which this determined the fate of passengers during the rescue efforts The introduction asks Who were the third class passengers and uses ethnic and economic backgrounds to suggest the third class belonged to the Old Immigration wave of migrants rather than the contemporary New Immigration of the first and second The first chapter concerns the exclusion of third class narratives in the popular story of the Titanic Chapters two through seven determine the whereabouts of the third class during every stage of evacuation and flags the discrepancies in testimonies from both the British and American inquiries Chapter eight provides a conclusion which claims the popular story includes a great many falsehoods with regard to the third class including their treatment by crew their behaviours and their survival rates The first appendix tables nationalities into

regions the second outlines the twenty routes to the lifeboats as testified by one of the Titanic design architects and the third provides deck plans for every level of the ship

Titanic Stephen Cameron,1998 Since the disaster in 1912 one area of the Titanic story has been overlooked That place is Belfast the city of her birth This book details the events in Belfast from the time of Titanic s conception and laying of her keel to the time when Belfast and Ulster mourned the loss of loved ones on the ship s only voyage

The Titanic and the Indifferent Stranger Paul Lee,2009 Even the staunchest of landlubbers knows what rockets at sea mean or do they A short space of time after the fatal collision with an iceberg the Titanic s crew sent rockets aloft to attract the attention of a ship seen just a few miles But that ship never responded and 1500 people died in the frigid waters This book details the scandal of the Californian blamed by many for being that very unresponsive stranger Rockets were seen and ignored but was the Captain guilty of mass murder Did more than 1000 people needlessly die Why was the wireless operator not awakened Could the Californian have saved anyone And why is this story neglecting the ethical controversy surrounding salvage the single most divisive issue in the Titanic research community
