goes where no other book on the nonprofit sector has dared to tread Where other texts suggest ways to optimize performance inside the existing charity paradigm Uncharitable suggests that the paradigm itself is the problem and calls into question our fundamental canons about charity Dan Pallotta argues that society's nonprofit ethic creates an inequality that denies the nonprofit sector critical tools and permissions that the for profit sector is allowed to use without restraint These double standards place the nonprofit sector at an extreme disadvantage While the for profit sector is permitted to use all the tools of capitalism the nonprofit sector is prohibited from using any of them Capitalism is blamed for creating inequities in our society but charity is prohibited from using the tools of capitalism to rectify them and ironically this is all done in the name of charity This irrational system Pallotta explains has its roots in four hundred year old Puritan ethics that banished self interest from the realm of charity The ideology is policed today by watchdog agencies and the use of so called efficiency measures which Pallotta argues are flawed unjust and should be abandoned By declaring our independence from these obsolete ideas Pallotta theorizes we can dramatically accelerate progress on the most urgent social issues of our time Uncharitable is an important provocative timely and accessible book a manifesto about equal economic rights for charity This edition has a new updated introduction by the author **American Educational History Journal** J. The Good of Politics (Engaging Culture) James W. Skillen,2014-03-18 In this addition to the acclaimed Engaging Culture series a highly respected author and Christian thinker offers a principled biblical perspective on engaging political culture as part of one s calling James Skillen believes that constructive Christian engagement depends on the belief that those made in the image of God are created not only for family life agriculture education science industry and the arts but also for building political communities justly ordered for the common good He argues that God made us to be royal stewards of public governance from the outset and that the biblical story of God s creation judgment and redemption of all things in Jesus Christ has everything to do with politics and government In this irenic nonpartisan treatment of an oft debated topic Skillen critically assesses current political realities and helps readers view responsibility in the political arena as a crucial dimension of the Christian faith

Seeds of Western Culture: Universal Chronology, the Exoduses and Archilochus' Odyssey

Graham Peter Scott,2025-01-01 The book rediscovers two of the main seeds of Western Culture the Exodus and the Odyssey which are entwined within the book by both a common link with Egypt and a review of ancient chronology They were both antecedents to the rise of Christianity which is at the heart of Western Culture It was inspired by a desire to understand the

spiritual message of the Odyssey which required both geographical and spiritual interpretations of the poem Linked to this was a desire to understand the political context of the Trojan story which required resolving the false hiatus in the archaeology of Troy This resulted in a new paradigm for understanding ancient chronology which revealed the stories behind the Exodus and the location of the Garden of Eden Writing the book has been a long and eventful journey longer than Odysseus 19 years away from home The book is written in five parts Universal Chronology Based on the identification of Menophres with Thutmose III and of the Bubastite Portal s reference to Shoshenq s participation in the Battle of Qarqar the Egyptian Third Intermediate Period is shortened by 120 years with a pharaoh ruling from Tanis and subordinate kings at Bubastis and Thebes The Exodus Using the Universal Chronology and genealogical information and dates provided by the Bible it is demonstrated that the story of the Exodus is a combination of two events being the exodus of the Hyksos led by Abraham in 1406 BC following the eruption of Thera and the exodus of the Atenist Levite priests led by Moses in about the first year of Tutankhamun 1204 BC The story of Abraham also reveals the location of the Garden of Eden in the heartland of the Levant Radiocarbon Dating The process that created the dendrochronology based radiocarbon calibration curve is demonstrated to be a flawed non scientific process that relied upon circular arguments The Odyssey By comparing the life and work of Archilochus to both the Odyssey and the Iliad it is shown that Archilochus must have been the author of the Odyssey The allegory within the Odyssey is also discussed to provide both geographical and spiritual interpretations of the poem Western Culture The two main streams of Western Culture Ancient Greece and Christianity are shown to have had their foundations in the stories surrounding the Trojan War the spiritual message of the Odyssey and the influences of Egypt on Greece and Judaism It is shown how Greek and Jewish religions were fused to create the Gospels and contributed towards modern astrology
